■ **Course Average(COR AVG):** This is the average of the total responses for this course. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Individual Average(IND AVG):** This is the average score of the total responses for this instructor. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Faculty Average(FAC AVG):** This is the average of all responses for similar course type within the Faculty. For example, Faculty average of Studio IV offered by FA, represents the mean of all responses for Studio courses offered in FA during the given semester.

Scale: 1-3: Unsatisfactory, 4-6: Average, 7-8: Good, 9: Very Good, 10: Excellent

What did you like best about this course?

Sr No.	Comments
1	The course detail
2	Challenging and critiquing one of the most renowned architecture collectives.
3	The way the studio was organised.
4	Inputs from the faculties, especially the input lectures by Kevin were really very helpful.
5	The way tutor critique about the design.
6	Overall course was interesting and challenging.
7	The studio raised interesting discussions which helped one analyse and develop critical thinking towards existing situations.
8	The tutors had a big impact on the process of setting some ethics and values for our practice.
9	An exploration of Architecture and allied fields as a cohesive whole on various scales. You rarely get to learn principles of urban design and interior design thru architectural design, this efficiently and in such a short span of time. Thanks tutors and TA.
10	I like the critical thinking and reasoning behind taking any decision in the design process in an architectural heavy site like IIMA, without getting affected by the stardom of the architect. Also, We learned how it's so difficult to make the flawless architecture even by the star architects, which is a myth. Furthermore, we learned, we have been divided by these invisible boundaries like architects, urban design, landscape, and interior and scared to take responsibility and how it should be faded.
11	-
12	Working as a group of 12 people

What would you like to change about the course?

Sr No.	Comments
1	It can be on site
2	A collective document accessed by all since the beginning of the course will help keep things in sight. Many times things are forgotten from the previous discussions even if there are recordings.
3	The contradictory views of the tutor made it more difficult for the final individual output. The group work for online becomes a very difficult task in terms of coordination from being home with multiple people. Individual projects are more preferable during an online course.
4	A contextual studio should have not been conducted online.
5	Contradictory views of tutor.
6	nil
7	-
8	It would have been great experience if it could be a regular offline semester.
9	None
10	I like to change the format of the course from being online to on-campus. As most of the time got lost due to coordination. It's a masterplan level of the studio and cannot be done through a 15" screen and being online 18 hours a day.
11	-
12	nothing

Course Comments

Sr No.	Comments
1	A contextual studio should have not been conducted online. The outcomes would have been very different in case it was offline.
2	-
3	The studio sessions were extremely interactive and overall a very good learning experience.
4	-

What did you like best about this instructor's teaching method / approach?

Sr No.	Comments
1	Her approach for design.
2	Persistence.
3	The excitement and the involvement by the tutor was way more than expected which was very encouraging for the entire session. Always wanted to get the best out of us. And being available for the students always even after the studio timings.
4	The endless patience.
5	The tutor always encourages to get design which is user friendly.
6	Efficiency in communicating the concepts and ideas.
7	The instructor challenged us to develop practical solutions for lifelike situations within the context of the studio.
8	Her narration can make you understand anything and everything. Great narrator.
9	The careful and excessive thought given to sensitivity and detail is worth a thumbs up at all times. There's always a lot to take back from her, good enough to strive and achieve something that comes as a process.
10	The way of explaining the critical concepts which we often lag in proceeds for designing is well thought through and discussed before doing any design solution. The patience displayed by the teacher to make us understand something.
11	-
12	I like the process. Every lecture gives a glimpse for upcoming exercise.

What would be your suggestions to improve the instructor's teaching?

Sr No.	Comments
1	.

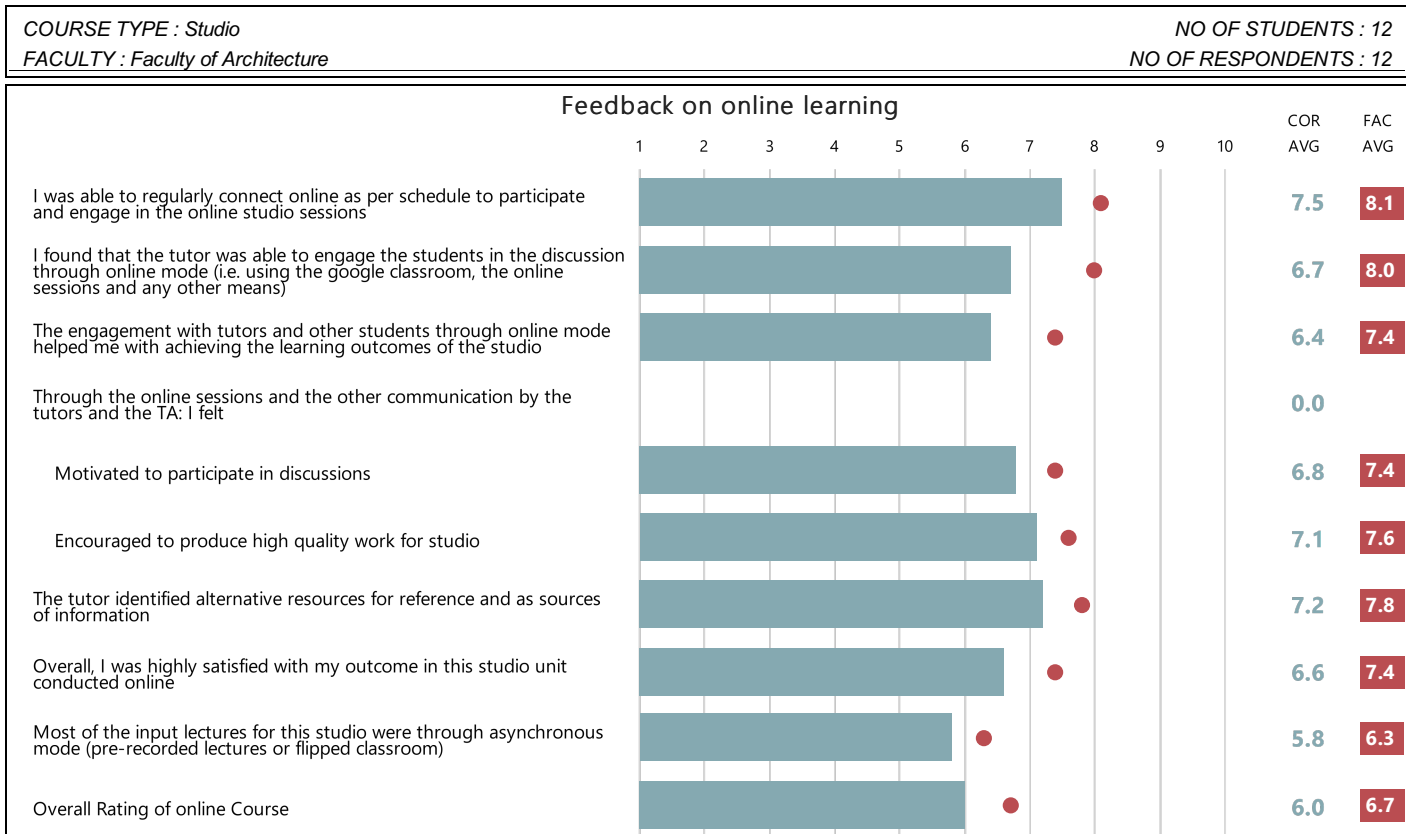

2	A slightly more professional way of handling things.
3	Nothing more, just can go a bit light somewhere .
4	Nothing
5	if we structure course in many part and weekly marking system that help to produce more work.
6	nil
7	-
8	Nothing, I think she is more than efficient.
9	None
10	Nothing in particular
11	-
12	nothing

Instructor Comments

Instructor Name: Shubhra Raje

Sr No.	Comments
1	It took some time for all of us to understand her, but we were happy with all the attention and guidance she kept giving until the very last day. She is always available for discussions and the fact that her focus is more on inhabitation of space helps a lot.
2	i was really good experience to work with you, the way we get design critique is really nice.
3	-
4	-
5	Mentor did an excellent job in teaching this course.

Compared With face-to-face-on-campus learning, using online learning :

I Experienced These Advantages

Sr No.	Comments
1	To know different designs approach,
2	Convenience of work from home.
3	The online medium had few advantages as anytime quick discussions could take place and the recordings were the main advantage which we don't get during on campus studio.
4	wastes less time.
5	we can connect our tutor any time.
6	Recordings of the sessions were helpful to look back if there is any doubts especially due to unstable internet.
7	-
8	Time saving, made me more vocal.
9	Ready availability of recordings
10	the recorded classes were helpful to revisit the studio.
11	-
12	improve presentation skill

I Experienced These Disadvantages

Sr No.	Comments
1	No site visit
2	Too much screen time. Too much forced interaction with the tutors.
3	Design discussions and group work is best when on campus. Online mode doesn't work best for group work, as people in different states, different environment timings don't match up, and thus that creates a problem for the outcome and makes it difficult.
4	Its very difficult to engage in the conversation and discussion, The attention span is really less.
5	explanation is not good in online

6	Online learning was very difficult because of the internet issues and communication problems.
7	The concept of peer learning of majorly missing.
8	I had faced Connectivity issues through-out the semester. Wasted so many times in class discussion, which has no outcomes. Explaining things through computer screen was tough for me.
9	Inaccessibility to the Site. the studio was heavily site based, hence justice to full extent couldn't be done.
10	I got cervical spondylitis dues to constant staring at the screen for long hours.
11	-
12	lack of thinking process and discussion and creativity

Suggestions for improving the online studio learning experience

Sr No.	Comments
1	it should be a compulsion to keep the videos on, else half the people are busy doing something else.
2	-
3	-
4	Group activity as a task thru online media, could have been modulated a bit. In order to hold more relevant and constructive conversation in a systematic manner.
5	-
6	Better communication
