What did you like best about this course?

Sr No.	Comments
1	the course itself was very well designed and executed. It kick started the design thinking process and improved my attention to detail. I liked the describing objects the best for it really opened my mind to the world around me.
2	-
3	Best thing was the draft system which helped me improve my assignments.
4	We were given appropriate amount of time to work on the exercises and we were encouraged to write in our own way. We learnt how to write professionally and specifically.
5	The reading sessions
6	Each module was connected to other at the end
7	All the outcomes showed alot of improvement and development.
8	The readings module is the most interesting to me.
9	the structure and the evaluation process
10	Open discussions
11	the faculty was really knowledgeable
12	I liked everything about this course. Since most of the exercises were new to us, I felt off-track initially. Thanks to the constant feedback by the tutors, I was able to understand my mistakes and shortcomings. It provided room for improvement.
13	This course helped hone my reading, writing and communication skills.
14	-
15	As someone who enjoys writing, ROWC was overall an engaging course
16	relevant topics and exercises
17	Comments are continuously given to improve
18	The chronology of the exercises
19	The structure and immediate feedback that is given at each stage of our exercises.
20	The faculty was great and I learned many new things about writing and its importance in professional life.
21	The very first group activity we did as a unit where we had to come up with a story with just a prompt and read it aloud at the end of the session. It was creative and very interesting.
22	Providing knowledge on writing and research which helped me improve the way I write
23	
24	It was a way to delve into language as a tool for my field of study in a way that if in any other institute I do not think I would have got the opportunity to explore.
25	It was very relevant with respect to this field. The exercises were connected to the studio work.
26	Interactive language skill development, challenging exercises and effective language proficiency development.
27	It helped me analyse texts and learn how to show my work in words.
28	Improving writing skills involves consistent practice, diverse reading, and attention to key elements like clarity, structure, and creativity. Set aside time for regular writing exercises, explore various genres, and seek feedback to refine my writing style.
29	this course has taught me softskill that can be readily applied
30	I liked the concept of writing and incorporating feedback along the way. The feedback from the faculty and TAs was also very helpful throughout the duration of the course.
31	Overall the course at cfp helped in improving my communication skills and the necessary things that as a student required in the future
32	I like email writing most because I think it's going to help me a lot in future.
33	Improved my awareness of the reasoning behind each and every sentence.
34	sometimes it was totally unrelated to design which was nice
35	the faculty and our interactions with the faculty were the best part of this course. The light hearted yet professional atmosphere was amazing where we are all considered equals in the unit.
36	The system of feedback, draft wise feedback because of which we could correct our mistakes effectively for twice and then final submission.
37	Nil
38	Very effective and relevant in terms of the things that were being taught.
39	I liked the course itself. It gives us a chance to enhance our writing skills which not many institutions do. Personally I like creative writing so I liked the narratives exercise the best.
40	Improved my descriptive writing skills.
41	The teaching
42	Writing skills
43	The most I liked about the subject was it provided with an overall understanding of the significance and use of Reading and Writing Skill for our professional Design Career and made us practice the very skill for formulating our portfolios. Even though not directly taught, I understood the content requirements of platforms like LinkedIn, and how to have a conversation with clients, and how to effectively pitch my design with the correct research.
44	Learning how to convey the thoughts in my mind, as a designer into words!
45	it improved my writing skills. conveying my ideas have become easier
46	The overall course was good and perfect for future career..
47	Learn how to direct something to someone.
48	As someone who doesn't read or write much, what I liked best was that ROWC allowed me to push myself to my limits and actually made me realise that I am capable of writing by exploring various writing techniques and formats that suited me the best.
49	The course structure was amazing. I loved the flow of each exercise and how it connected to the previous or the next one.
50	Idea of Perspectives, the freewrites and the no homework policy
51	No feedback
52	It really helped me upgrade my way of writing and explaining my work .
53	It improves our language.

54	The feedback mechanism through drafts really helped to achieve a deep and clear understanding of the concept.
55	It's well structured and practically based
56	It changed my way of writing.
57	What I liked best about this course was its transformative nature. From initially feeling nervous about writing my first sentence to gaining confidence in expressing myself in various styles, the journey has been remarkable. The ROWC classes, seamlessly integrated with studio exercises, provided a dynamic and indispensable addition. Each writing endeavor, from articulating the essence of a photograph to critically analyzing text, became a continuous process of learning something new throughout the semester. The course extended beyond writing, teaching valuable skills that transcended the boundaries of the written word.
58	We were taught to write professionally.
59	The systematic feedback process and writing to the point
60	The professionalism is asked from us in writing.
61	All
62	How it improved my method and outlook towards writing.
63	Introduction to research was the best thing about this course because it will help in future.
64	It made me a lot better with the way I write things now, it taught me ways to think and write in a structured manner with required content and proper language. I also learned ways to read texts effectively to gain the most information in a fixed time duration.
65	The course was well structured and efficiently covered topics related to professional writing.
66	Freewrites.
67	Good communication between students and teachers and faculties
68	the faculty! literally hands down on how helpful and indulging they could be. effective comments were given on time for our improvement.
69	Deep thinking and writing skills.
70	The understanding of faculty.
71	module time allotment
72	I liked the compilation exercises the best about this course.
73	The course helped me to refine the way I write and channel my thought process. I learned to understand topics and concepts in a short and effective manner.
74	the feedbacks and comments ... also the provision of drafts before the final submissions
75	The way it helped me in writing and describing my work professionally
76	How to be more specific about something and improving communicating skills.
77	The best part was that I got a chance to explore my writing and thinking.
78	The discussions before and during the modules were very helpful and fun.
79	The draft system as well as the feedback system
80	How to help me develop my skill of formal writing
81	It is very much helpful for the future. It has improved my basics.
82	The course was completed within class, no work to be done after college hours is an important factor that I appreciate. The course very well changed and developed my writing skills as per the real outer market world. It really helped me understand what kind of text should be written where.
83	It helped me refine my writing skills. We were introduced to professional writing exercises which helped us understand the new narrative, this not only helped me develop a concrete understanding of how the professional writing works but also helped me understand the aspects to be taken care of while describing my designs.
84	I valued the faculty's constructive feedback approach and their adeptness in addressing doubts. This method has played a pivotal role in nudging me out of my comfort zone, particularly in writing. The encouragement to link my writing to specific occasions and adhere to a defined format has not only honed my skills but also provided a structured and purposeful dimension to my writing endeavors.
85	Very interesting exercises. I loved how they tied up with the studio modules.
86	I loved the freewrites
87	The course helped me improve my vocabulary as well as communication skills. I also learnt how to do research in the professional manner.
88	Well designed and interesting exercises. Especially Reader's Response, which incorporated deciphering text and understanding it.
89	I liked that the course was entirely based on developing skills which would be used by us in our career ahead be it an architect, designer or a civil engineer
90	It helped me improve my communication skill and English writing skill
91	All the discussions that we had about different topics
92	Developing professional communication
93	It focused on improving real life skills which would be very helpful in my future in the design field
94	The group discussions were very engaging which allowed me to understand the writing styles of my peers.
95	The learning outcomes from the numerous exercises and their application in real life. Focusing on tiny things is a step towards professionalism. Shaping talents and creating a route for a successful designer.
96	Classes are fun and interactive.
97	It gave me cues and direction on how to go about the literature aspect of the program.
98	that the way it is systematic
99	Helped in improvement of my language and writing skills.
100	this course has improved my language part
101	I like the way of teaching. They have enhanced our skills in writing and thinking.
102	The course itself was great and best thing about it is that it improves your writing skills.
103	The process of going through several drafts to reach a final outcome. Helped me develop the patience to write and go through long texts. Brought about a certain structure to the way I translated my thoughts into words.
104	Improvement of writing skills that it made possible
105	The work in digital method, I mean till now I always did everything in notebooks so it was a new concept in lecture
106	Introduced various topics through the Reading exercises.
107	It is helpful to increase my English knowledge. And help me how to communicate with others.
108	I like that the course was structured in such a way that it managed to bring a lot of attention to every minute errors and gave a lot of room for improvement
109	Whole course was well structured
110	The course really helped me understand how to express my thoughts in a structured manner. It also made me evaluate things around me critically and read new things.
111	The course was well structured and helped me throughout the semester to improve my language and writing skills
112	ENHANCED MY SPEAKING AND PRESENTING SKILL

113	I like annotated bibliography and concept notes module as it made us work in a group which was helpful
114	The best thing I liked about this course was tutor interaction and feedback they provide on the assignments. It really helps foster my learning, correct my mistakes and develop the skills for writing effectively.
115	It is well structured and helped my understand my weak points
116	Made my language skills better and helped me understand and incorporate feedback.
117	The feedback and draft system that helped me make required changes in my work.
118	The formal tone we were aimed to achieve
119	The course was interesting.
120	Explored a variety of writing styles
121	The draft and feedback format was really helpful. It gave the opportunity to refine an assignment at a time.
122	Learning to write professionally and efficiently, importance of layout, format, context, relevance and reading in the field
123	Structured well and goes in line with the studio modules.
124	The way it is designed and the usefulness of the course for the future endeavors.
125	The learning outcome of all the exercises is designed in such a way that it all in the end comes in handy in professional life.
126	I liked that ROWC always encouraged critical thinking and asking questions. I valued the discussion we had for each exercise which really helped start things off. I also liked the way the class was structured and requirements for each draft were specified
127	All the faculties and TAs worked best to their abilities to teach us.
128	everything
129	The draft and evaluation method
130	this course Taught me to have a formal approach towards my work and also improved my writing skills a lot
131	The D1 D2 F system.
132	The best thing about this course is that it helped me increase my knowledge and vocabulary.
133	It was well-structured and holistic.
134	The feedback received is prompt and helpful. It might be overwhelming at times, however it helps us understand the topic more clearly.
135	relevant modules
136	The guidelines in the course helped me professionally orient my writing style.
137	I really like the way this course is oriented towards making us write and communicate as a designer. Also the concept of giving feedback for the initial drafts is a very good part of this course, as it helps in improving our work and producing a good output.
138	New way of articulation and interpretation
139	helps develop various skills to use at various times
140	This course will really help in my academic journey and in the future as a designer and the thing which I like about this course is the feedback system after every draft we submit in each module.
141	It improved my vocabulary
142	it helps to improve literal approach
143	The research was interesting
144	I liked the knowledge it gave me about how to write professional writings.
145	will be very useful as a professional
146	
147	It was so helpful to me as I was studying my whole school in Gujarati Medium. I learnt a lot from this course.
148	A proper and structured approach to understanding important skills necessary for communication through text.
149	modules like describing objects that will be helpful in the long term
150	Feedbacks
151	That it starts with teaching us how to think like designers first, before teaching us how to write like designers
152	The course was well structured in way that it covered almost all the aspects of basic vocabulary and communication needed for your professional career.
153	I really enjoyed the course as it taught me how to talk about my work in a persuasive and concise manner. It was something very new and interesting.
154	The way it was structured.
155	At first I wasn't really interested, but steadily the faculty played a huge role to make interested and to make me work on the exercises to actually understand what we are going to do.
156	I loved the sequence in which the modules were. The previous modules provided the understanding of topics that were necessary for the upcoming modules.
157	reading object and writing craft, this is best course I have ever seen, I like that it teaches a lot of new and different things about writing and speaking.
158	I thoroughly enjoyed the meticulously crafted structure of the ROWC course. Starting with short-form content like captions, the course provided a perfect opportunity to familiarize ourselves with essential software tools such as Google Docs, Drive, and Classroom. The emphasis on the 2-draft-1-final method helped us understand how to organize information effectively. Additionally, the process of receiving comments from tutors and learning how to address and improve our work was invaluable. What stood out most was how the course progressed organically from simpler exercises to more complex texts, all while incorporating the knowledge gained from earlier exercises. The journey began with citing captions and gradually evolved into conducting thorough research and eventually creating a comprehensive booklet independently. The seamless integration of concepts throughout the course made the learning experience not only educational but also creatively fulfilling. The overall structure of the course was well-designed, facilitating smooth and meaningful learning.
159	The relevance that many courses had
160	It has all kinds of exercises.
161	This course really helped in mind exercising and creative writings.
162	The effective writing strategies taught, The interactive discussions that enhanced our understanding of the topics.
163	The way it improved my writing skills to a level I did not expect
164	It improved, my English and helped me think faster before writing anything
165	Logical
166	Nothing.
167	It built overall skills required apart from the studio.
168	The free-writes help me let loose and really get thinking. Really liked the system of drafts and feedback as it helped in a broader understanding of my own work.
169	The draft and the feedback system
170	Narratives
171	opportunities of learning the writing skills for future development.

172	Introduced me to research which I feel is a very important aspect of this course. Also helped me improve my writing.
173	I liked that we learnt things like writing exhibition introduction and formal captions, which will help me in the coming years.
174	It helped me in better expressing my thoughts.
175	I really liked how it provides different situations related to the professional world which would later help me grow my communication.
176	In this course, I like how well the things taught can help in giving verbal assistance to the works that I would do in the upcoming years.
177	The course taught me to write in a way I never imagined myself writing.
178	The emphasis on discussion
179	The system of drafts and feedback on drive is very well structured and helpful.
180	The structure and how all the modules were schedule, like how one module helped with the next module
181	This course has helped me think and write faster and to communicate my ideas in a more effecient manner.
182	I like the diversity of the course in how it encounters all the various kinds of writing activites that we encounter throughout. I loved the Reading sessions and perspectives lectures even more.
183	The ROWC Course helps us understanding how to articulate concepts and have an eye for details. It also givesus great clarity in the research process. The perspective sessions are also really fun and interesting.
184	Reading.
185	It helped me in improving my writing skills.
186	-
187	It helped me write in a professional manner.
188	learning outcomes and observation skills
189	i like the teachong method and how tutores and ta engge with students to solve their doubts
190	Helped me understand my writing better and showed me how to improve.
191	The teachers anf the interactive classes were thee best.
192	Feeedom within the requirements
193	nothing
194	The idealogies of the course were nice.
195	Different exercises helped me in improving my professional writing skills.
196	,
197	I loved the fact that the course gave me complete freedom to write the way I want (content) which was a complete shift from my English classes in school
198	The materials were always with us and the comments provided actually helped a lot.
199	The course introduced us to a new way of writing thatwent sub par the way we learnt language in school. It gave a newer perspective towards writing and reading as excercises progressed. The way of thinking and deciphering knowledge truly helped gain a new approach towards reading and writing.
200	The feedback and learnings were valuable
201	Its practical applications that will help me in my career.(except the narrative exercise)
202	The course was extremely focused on design communication. It taught us how to describe our work to people.
203	It helped developed writing skills and dveloped a new way of looking at things and reading them.
204	I was taught things, I didnt know about before, the way i was taught about them and how engaging the classes were
205	I learned the true meaning of formal and professional writing as compared to the writing that was taught to us during school. The comments and feedbacks were quite reevant.
206	Developing my language. Gave me many opportunities to express my creative thoughts.
207	It taught me how to communicate clearly which i feel is very important in the field i am currently in.
208	Varitety of exercises
209	-
210	I liked the perspective it gave me to apporaching design an articulating my thoughts in a cohesive manner. It also helped me understand my apporach to design and therefore make intentful creative choices in my studio work as wll.
211	Made me think more about my work and realise the importance being able to present it.
212	It helped me understand and explain my work better.
213	I thoroughly enjoyed the entirety of the ROWC course and cirriculum.
214	I liked how it tested my reading and writing and helped me improvise. I liked the research module because it made me learn a lot of new facts and stories about various designers as well as helped me understand design. Also I specially enjoyed the elevator pitch during the research.
215	The chronology in which the modules progressed, it was well structured and the skills achived each tmodule helped us in the next one. The modules were practical and effectively usable in the real world.
216	The best thing was it helped me improve my communication and presenting skills.
217	It helped me communicate better and gave me moderately good writing skills. The submissions are eased out and there's no pressure in the submissions.
218	The course has effectively improved my communication skills and the feedback system works very well.
219	The course helped me in making my english powerfull and the exercise also helped me in correcting the format pf writting diffrent things
220	Improves writing and research skills.
221	The way they provided enough resources and ideas to work upon and indirectly helped us to grow.
222	It teaches how to present your work to professionals as well as to ordinary people who have no idea about our work.
223	I liked most about this course was the creative liberty.
224	Excercises
225	The way it enhanced my English skills unknowingly was amazing to see.
226	I never thought of google drive to be such an effective and well organized platform for learning. The draft method along with constant follow ups and individual feedback was extremely helpful. The references and material provided for each exercise along with writing techniques and examples is what i liked the best about this course.
227	Feedback
228	Organisation, and provision of extra time if necessary
229	The course is great, the material is easily available, and the course structure ensures the students are able to learn everything this course has to offer The fact that learnings in the previous exercise come in handy for the consequent exercises feel very rewarding.
230	The way it ROWC is directly tied to Studio actually gives clarity on why a certain module is important and why we are doing the projects. It also provides another means of expression other than drawing.
231	Program instilled valuable professional writing expertise, readily usable skills set.

232	
233	All the discussions were useful and each topic was helpful to us not only for our academic career but also ahead professionally.
234	Helped me to structure my words in a better way
235	I got to learn many new things at a professional level, my skills were improved in many ways.
236	The material and the motive of the course with the methodology was the thing that was best about this course.
237	Help me improving my communicating skills which would help me in my architectural journey
238	It improves the writing skills.
239	The way it developed my writing and thinking.
240	The environment while studing was calm which helped me focus on my work.
241	Everything
242	Everything about this course I Like
243	The mechanism of consecutive feedback on two drafts and then submitting a polished version at the end.
244	Everything
245	Manushi ma'am as my tutor.
246	The way it improved my reading and writing skills.
247	My improvement in writing and thinking skills.
248	Helped me change my way of reading and writing, and made it better
249	The course helped me improve my skills in writing.
250	Building the ability of content creation.
251	Handling tones well
252	These skills are helpful and essential to communicate professionally. I liked that we are being taught these skills from the start.
253	Work
254	The course was well structured as well as providing a clear and concise understanding at the content.
255	Improved my writting skills, by helping me build connections, through various thoughts i had.
256	Each module taught us something new.
257	The way course is structured to improve the writting skills.

What would you like to change about the course?

Sr No.	Comments
1	nothing personally. Ilike the modules, what they cover and how it is structured
2	-
3	Nothing, it is going well
4	Nothing. It's pretty perfect!
5	Nothing
6	Some of the modules are a little boring
7	Nothing
8	for the Portfolio module to be introduced earlier but for the submission to be towards the end of the semester so we have more clarity on the theme of the portfolio and deas for layout. It would also be nice for more creative writing modules to be introduced.
9	better introduction to each module and similar view points from all the faculty
10	Reading
11	most of the classes are really silent with no communication with others
12	N.A
13	None.
14	-
15	-
16	nothing
17	Nothing
18	A little more clarity on how the exercises connect with our future requirements would be appreciated
19	The reading exerisises could delve into understanding more things apart from the theme, argurement and substantiation. This sometimes gets a little monotonous and understanding other aspects of text may help us to understand the text better. Formatting and designs for Indesign could be taught seperately either in studio or rowc. This will help a lot in both the classes.
20	To add something more like narrative writing .
21	More creative collaborative exercises. More interacting exercises, that helps us see how everyone envisions and thinks about a certain topic like the very first one.
22	.
23	
24	In my Experience some tutors give indepth constructive comments which may seem disheartening at first but do build up to improve the grade in the long run. But this level of indepth checking was not done by all the tutors equally. When moving through the various modules and when we recieve comments from different tutors the clear contrast was evident in my opinion.
25	None
26	Nothing
27	Nothing.
28	Nothing
29	this course lacked creativity at some level.
30	Maybe, shorten the duration of the exercises? Because there was a lot of time for some of the exercises...
31	nothing I feels everything was properly planned and was helpful as well.
32	During this cource I realised that all the topics which were taught in this course are very usefull in daily life. Thus there is no need to change anything about this course.
33	nothing
34	-
35	Nothing, I really like the way the course is structured, the fair way in which the attendance is taking is great, everything that you learn has a reason to it and you can clearly see that. The feedback system is great and works really effectively, not only the feedback we get online but also the personal

	feedback we get in class, it is very good.
36	Nothing
37	Nil
38	Structure of the course can be improved a bit. For example the portfolio making exercise should be made more towards the end of the semester.
39	Nothing really
40	Can provide more interesting readings
41	None
42	It needs better discussion sessions.
43	Nothing, the course is perfect, can seem a little difficult at times, but only brings out the best in us.
44	-
45	nothing
46	I would like to change the assignments and maybe make it more interesting...
47	Nothing.
48	I have no suggestions as of now.
49	You should definitely keep ROWC from 8-10 so that our minds are fresh and the studio timing is just 6 hours continuous. Also after lunch ROWC doesn't work because the students feel sleepy
50	If the Faculty gives more time on each assignment, to really understand and write, then that would be great.
51	Some modules can be a little difficult
52	I don't I would want to change anything about the course.
53	Nothing
54	At times, the timings are short as compared to the exercise given. If the exercises are reduced or maybe the timings are increased, it will help to write with a desired quality.
55	N/A
56	Nothing.
57	-
58	Nothing
59	Timings
60	nothing
61	Nothing
62	not really
63	There should be a little less exercise in semester 1 and the time limit of the submission should be extended. The other thing is 'Narratives' this exercise comes under creative thinking, and students are generally told to be around some guidelines. At least this exercise can be without guidelines and the student can write whatever he/she wants like- action script, a love story, bold story etc.
64	There is nothing I would want to change about the course, the only thing that I did not enjoy was making the studio portfolio and rowc booklet in the classes because it was a boring job to do and it felt completely mechanical.
65	-
66	Give us just a little more creative freedom at times and better samples. We usually do not refer to samples in our unit.
67	Everything is alright. Nothing to change
68	personally for the rowc booklet I think the time limit given was pretty less.
69	Nothing
70	Give students a buffer to submit after semester
71	I wish there were more group interactions(not class discussions) for more individual involvement in interactions.
72	Exercise like formal email was given more time than required which later reduced the time left for the booklet exercise.
73	Nothing in particular.
74	the reading exercise, it was a bit difficult for me as I was not able to understand the text completely to find its theme or arguments... some of the texts were not that interesting...
75	nothing as such
76	Nothing
77	Maybe the too rigorous schedule that if you miss one class, you will lose marks on progress and that would reflect on final grade.
78	-
79	Nothing
80	Maybe give more accurate examples for each assignment
81	Make it more interesting.
82	I feel in the start we studied a lot about furnitures. From object description to research. If the same modules had different objects or topics for research other than just furnitures my interest and outcome would have enhanced.
83	Nothing
84	Nothing
85	Nothing.
86	How it is very non creative and didn't gave too much space for exploring
87	-
88	Nothing.
89	I didn't like the fact that the timings of the course were a little off. As it was in between the studio hours rather than giving me a break from the studio it resulted into a diversion in my focus and I was not able to focus on ROWC and was also tensed about my studio work
90	I think this course should be thrice a week only
91	Nothing
92	Nothing
93	Giving examples of work from would help a lot as we were doing these exercises for the first time and had no clue if we were going in the right direction
94	Nothing
95	timings
96	I'm not sure.
97	-
98	no its perfect

99	Nothing needed.
100	the course was perfect
101	Nothing
102	More efforts can be put in Captioning exercises.
103	Nothing (Sounds a little cheesy, but I really enjoyed this course) I really hope the timing could be changed, perhaps before the studio classes or after.
104	Reading module could have been slightly more interesting and engaging.
105	The timing, personally rowc classes in afternoon were boring
106	More student samples could have been provided in the course material.
107	I personally request that to please keep Unit 7 in spring semester. Because we need more it.
108	None
109	I guess change in timing would be great as after lunch the class gets really sleepy.
110	The timings of the session should be in the morning either session 1 or 2, because after 2 studio sessions everyone is too tired and sleepy to focus on ROWC.
111	The course has been well put and structured
112	NOTHING
113	No change
114	The course is well prepared. I think more value would be added if speaking classes are a part of it. It should be introduced for variety of contexts such as jury, speech, public converse or some occassions etc. It will really boost the confidence for expressing our thoughts and ideas .
115	nothing
116	The start was very tough as many new things such as formatting the doc, feedback etc, were introduced very quickly.
117	Nothing.
118	It was abit hard to understand since i didnt had much experience in writing in a structured formal tone .
119	The output required seemed to be limited to a certain viewpoint sometimes.
120	Not much, most of the material was well organised in my opinion
121	Sometimes there won't be a feedback given on time, which would waste time in class while just waiting for the feedback. Sometimes, the tutors wouldn't be on the same page and give different feedback's regarding something, causing confusion.
122	Nothing
123	Making many more modules interactive. For example, I really liked the Elevator pitch and building a narrative with a prompt at the beginning that Ms. Cat did with us.
124	To give some context about the reading responses exercise to make students understand in a better way.
125	the structure and time duration of every exercise should be different based on the content of the exercise. for instance, time duration and process for narratives and formal emails should be workout differently.
126	i think more creative freedom would help in exercises involving design and writing.
127	No changes needed. Everything is perfect
128	Honestly nothing. Overall the course has helped me alot and the faculty is also very knowledgeable about her course.
129	I'd like there were more creative writing and reading except for free writes and readings
130	none
131	I think it's appropriate.
132	Nothing
133	N.A.
134	Readers response should be more about what we as readers interpret from a given text and not what the expected theme and argument are.
135	a more standardized grading rubric across units
136	The course plunged into the design industry from the very first exercise. At that initial stage, we did not have any exposure and struggled to produce content with quality. A slower paced introduction would have been more helpful.
137	No suggestions.
138	Make it more engaging and useful
139	Nothing
140	nothing
141	The materials provided by the university could be a little better
142	nothing
143	Keep more reading sessions
144	None.
145	nothing
146	
147	Faculty should check every single student's work persnolly. If someone have not done his work then teacher should take his/her work on their mind.
148	Nothing
149	reader's response did not feel helpful for long term
150	Focus on vocabulary.
151	I'd suggest Exhibition introduction should be placed immediately after captions because the similar objectives of the two excercises.
152	I would not like to change anything about this course as it taught us all the basic vocabulary needed for our journey through the university.
153	It would be better if the class was scheduled in the mornings instead of the afternoons.
154	nothing
155	here a lot of things happen or are tasked at the same time so sometimes its mixed up withh what to do and how to do and creates confusion in students
156	No, there isn't anything that Iwould like to change about the course.
157	nothing
158	While I don't have significant changes to suggest, I find that navigating through the Drive documents could be simplified. The current structure, although functional, might benefit from some adjustments to enhance user-friendliness and streamline the access to course materials. Simplifying the navigation process would contribute to a smoother overall experience for the students.
159	The backwards nature of exercises like exhibition introduction where one is forced to make things up instead of talk about our work organically
160	I like to suggest to make a exercise which can help improve vocabulary.
161	Nothing.
162	nothing
163	There could be more exercises like narratives and also structure based.

164	It is hard to understand how to get a better grade, the comments we get are not very easy to understand
165	Nothing
166	Should be more creative oriented.
167	Some exercises are way too lengthy and so i would like to shorten them and freedom writing own thoughts is there but should be highlighted little more.
168	More interactive sessions before we get to the actual module/ exercise
169	Nothing.
170	Reduce the time period given for ROWC. Less classes every week.
171	unirt 7 should be for whole year not only one sem
172	nothing.
173	It can include oral communication as well, which is also a very important skill.
174	Nothing
175	The course is at its best. I really liked the course. It does helps me to grow my passion for literature and reading.
176	Eventhough the content taught is filtered and structured, it would me better if it gerts more interactive with the students. (not talking about the interaction of faculty with the students, but about the interaction of the overall course with the students)
177	I do not have any suggestions for this course.
178	nothing.
179	The course material needs to be more comprehensible and organized.
180	Not much
181	-
182	There were some scheduling errors with the perspectives session just before the Diwali break. 2 lectures on the same weekend, and I happened to miss both as I had to come home.
183	Sometimes the comments offered by two separate TA's at two stages of the draft of an assignment are contradictory.
184	Some exercise are boring. I would like to have interactive exercise like writing about the trip we made or something like that rather than reading some very hard article.
185	No
186	extend submission dates
187	It should be more specific to our field and more practical.
188	the required result to be communicated clearly
189	everything is fine
190	Maybe a bit on how to write formal complaint letters?
191	Nothing the course is perfect.
192	Nothing much
193	nothing
194	Nothing
195	NIL
196	no
197	Some of the modules like reading are very subjective and there can't be specific answers to the questions asked so if the course would be more open to accepting these other answers as well it would be great.
198	Maybe more drafts with comments if possible
199	The reader's response exercrise needs to be consistent with the text types as it would help reflect where I lack. The constant change with text types confused me a little with how the argument can be deciphered from the text. Therefore, a constant practice with similar text types might help in clearing this confusion.
200	Course as a whole is a little monotonous.
201	a little more focus on speaking skills as well
202	The class should be kept in the morning from 8-9:30am. As we need a fresh mind while writing after lunch we are already tired from 2 sessions of studio.
203	nil
204	-
205	satisfied
206	Could correct grammatical errors and teach new new words which will be helpful in the future.
207	-
208	More discussion based learning.
209	compiling studio and ROWC portfolios. these exercises were stretched over long periods of time and guidelines/ objectives were unclear. lack of examples/materials made it harder, and the students were confused as to how to go about it.
210	Cant really think of anything.
211	Add more perspective type classes where there is more interpretation and research and design developing aspects.
212	N/S
213	NA
214	I would not like to change anything as such about the course because I enjoyed ROWC Sessions.
215	it was a great experience.
216	The reading sessions can be more interesting and the timing can be changed. The class can be either in the starting of the day or in the end of the day
217	Some exercises were quite repetative and it became a little boring towards the end. No freewrites
218	Nothing
219	.
220	Should have architectural based research as well.
221	In my opinion the lectures held should be before lunch timing, either first or second lecture cause keeping it after lunch break seems to demotivate and we also show less energy.
222	I wouldn't like to be change anything as everything was very new and unique to me . It helped improve my personality and so i have no suggestions
223	There was nothing in particular i found that required changing.
224	Nothing
225	None
226	The reading sessions could be made a bit more interactive by incorporating some narrative write-ups that encourages students to practice speaking and pitching skills in a clssroom setting.

227	Nothing
228	-
229	Although the material is there, conveying the essence of the material might sometimes be missed out, resulting in students not being getting the chance to grasp what the exercise is about.
230	Scheduling ROWC right after the 10am break instead of after lunch.
231	no
232	.
233	I wouldn't change but insist on making the ppts more readable like Studio.
234	N/A
235	No
236	None
237	no comments
238	Nothing.
239	No.
240	Duration should be increased for more one to one interactions with faculty.
241	Everything
242	No I don't think so about the change in this course because it is so enjoyable with good learning
243	I would like to change the format in which the grades are given to students. A student should be informed about his/her grades through email.
244	nothing
245	Some of the modules which weren't necessary should be modified.
246	Reading exercises can be a little more interesting and more narratives in the course please!! It was very interesting.
247	Although this course is great and i can't think of much which i would want to change in this, the evaluation of the exercises should be done only by the faculty you got feedback from
248	No problems in general, but maybe more activities during the course
249	nil
250	Nothing.
251	More about client management
252	Nothing.
253	Timing
254	The course lacked a bit of time management.
255	NA
256	Nothing
257	The course itself is designed in its best way which could help in improving the skills.

Course Comments

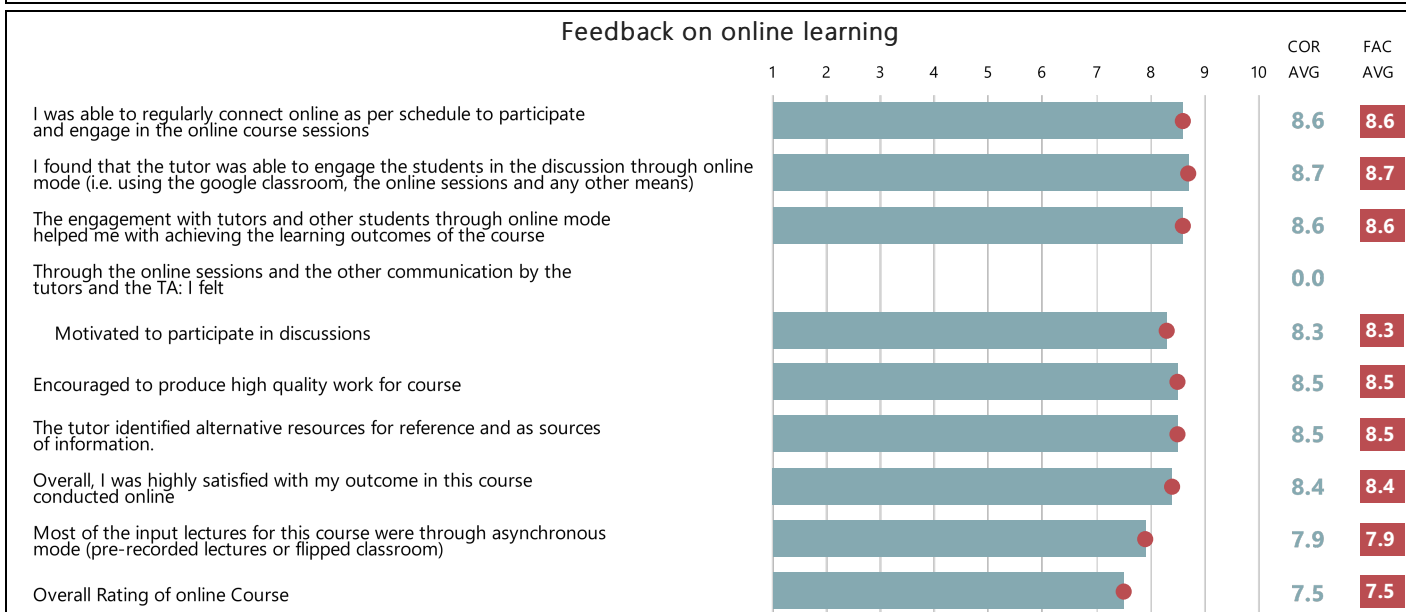

Sr No.	Comments
1	Overall, the course is very interesting and helpful in the long run.
2	N.A.
3	I expected ROWC to be as simple as an English course in school but as the classes started I realized it was much more. I have picked a lot of new skills that will come of great use for future writing and reading tasks.
4	It is key element of development through effective writing, which is a craft that evolves over time through a combination of learning, experimentation, and continuous refinement.
5	As this course includes email writing, describing object in brief as well as in long and also includes observational skill. I must say that I learned skills from course which I am going to use in future.
6	This course made a significant impact on my communication skills and English language proficiency.
7	none
8	Presentation and vocabulary improved. Very interesting.
9	The most enjoyable were the Reading Sessions. The texts rendered a new perspective of viewing Design and things beyond design.
10	The course altogether gets a little boring. Also for students who don't write or even read much, the exercises seem complex and they have to work outside of ROWC timings and that time is usually for studio work. Narratives, studio portfolio, exhibition text and concept notes are amazing exercise, increase the amount of time for them as they could get better and the feedback could also get very specific which would overall refine the exercise.
11	No comments
12	Noted above.
13	The student teacher ratio is 15: 1 and my class had 2 active teachers(22:1) . When i needed my query resolved, i had to wait too long. I really wasted a lot of my time
14	The different exercises of the course helps the students to explore the things around them and their own creativity.
15	overall the course was helpful in learning new skills of reading and writing
16	The interlink between exercises were helpful and the flow and connectivity between exercises was smooth
17	The timings of the ROWC class were inconvenient. We had to clear up the table for this class and interrupted the flow of the studio class. It would be better if the class is conducted in the first or the last session
18	it helped me alot
19	Loved the freewrites
20	The course helped me improve my language and further, I learned more skills that will be useful for my future profession.
21	I hope that the faculty is not changed for sem 2
22	This course was really resourceful. It helped me showcase and describe my work to other people also made me aware of the importance of good linguistic skills
23	N.A.
24	None.
25	Its very interesting, and has introduced me to various concepts like APA formatting ,etc,about which I was unaware earlier. The course has helped me in improving my writing skills, and has given me an insight into the way of communication as an architect or a designer.
26	N A
27	Nil
	there are many other things I observed where as a design profession writing comes into play, consider them too in the syllabus. Studying more local

28	approaches in hindi gujrati and other folk as we become designers for them should involve their context too.
29	-
30	tutors kept on emphasizing on their thoughts on the assignment rather than understanding ours
31	Maybe unit 7 need one specific classroom.
32	For now , no suggestions.
33	nothing.
34	good
35	This course taught us to write for a multitude of purposes. It trained us in adapting the tone of the writing to the scenario. It also improved my reading and comprehending skills greatly.
36	Overall it is a good course to start learning about Captioning and Exhibition intro.
37	We need more time for Draft 1 submissions.
38	nil
39	Right after lunch, keeping this class makes everyone tired and sleepy throughout the class. Could change the timings of the class.
40	please keep ROWC at 1030 or 8am. ROWC after lunch interrupts the studio workflow, keeping the laptop with sheets
41	It was fun
42	ROWC is nice. I'd want sem2 to have free writes
43	It helped me explore my thoughts and and understand different forms of writings in a creatively open space.
44	None
45	A well-designed course with visible progressive improvement seen at the end of the semester.
46	-
47	Great course but can look more into broadening the worldviews of students in a tasteful manner. The Perspectives lectures are wonderful but nothing in the course structure concretely pushes students to new levels of thinking or reaching new understandings of the world around them.
48	It was great.
49	This course helped me to improve my communication skills and which is so useful to me for which I thank you this course

1	Overall, the course is very interesting and helpful in the long run.
2	N.A.
3	I expected ROWC to be as simple as an English course in school but as the classes started I realized it was much more. I have picked a lot of new skills that will come of great use for future writing and reading tasks.
4	It is key element of development through effective writing, which is a craft that evolves over time through a combination of learning, experimentation, and continuous refinement.
5	As this course includes email writing, describing object in brief as well as in long and also includes observational skill. I must say that I learned skills from course which I am going to use in future.
6	This course made a significant impact on my communication skills and English language proficiency.
7	none
8	Presentation and vocabulary improved. Very interesting.
9	The most enjoyable were the Reading Sessions. The texts rendered a new perspective of viewing Design and things beyond design.
10	The course altogether gets a little boring. Also for students who don't write or even read much, the exercises seem complex and they have to work outside of ROWC timings and that time is usually for studio work. Narratives, studio portfolio, exhibition text and concept notes are amazing exercise, increase the amount of time for them as they could get better and the feedback could also get very specific which would overall refine the exercise.
11	No comments
12	Noted above.
13	The student teacher ratio is 15: 1 and my class had 2 active teachers(22:1) . When i needed my query resolved, i had to wait too long. I really wasted a lot of my time
14	The different exercises of the course helps the students to explore the things around them and their own creativity.
15	overall the course was helpful in learning new skills of reading and writing

16	The interlink between exercises were helpful and the flow and connectivity between exercises was smooth
17	The timings of the ROWC class were inconvenient. We had to clear up the table for this class and interrupted the flow of the studio class. It would be better if the class is conducted in the first or the last session
18	it helped me alot
19	Loved the freewrites
20	The course helped me improve my language and further, I learned more skills that will be useful for my future profession.
21	I hope that the faculty is not changed for sem 2
22	This course was really resourceful. It helped me showcase and describe my work to other people also made me aware of the importance of good linguistic skills
23	N.A.
24	None.
25	Its very interesting, and has introduced me to various concepts like APA formatting ,etc,about which I was unaware earlier. The course has helped me in improving my writing skills, and has given me an insight into the way of communication as an architect or a designer.
26	N A
27	Nil
28	there are many other things I observed where as a design profession writing comes into play, consider them too in the syllabus. Studying more local approaches in hindi gujrati and other folk as we become designers for them should involve their context too.

31	Maybe unit 7 need one specific classroom.
32	For now , no suggestions.
33	nothing.
34	good
35	This course taught us to write for a multitude of purposes. It trained us in adapting the tone of the writing to the scenario. It also improved my reading and comprehending skills greatly.
36	Overall it is a good course to start learning about Captioning and Exhibition intro.
37	We need more time for Draft 1 submissions.
38	nil
39	Right after lunch, keeping this class makes everyone tired and sleepy throughout the class. Could change the timings of the class.
40	please keep ROWC at 1030 or 8am. ROWC after lunch interrupts the studio workflow, keeping the laptop with sheets
41	It was fun
42	ROWC is nice. I'd want sem2 to have free writes
43	It helped me explore my thoughts and and understand different forms of writings in a creatively open space.
44	None
45	A well-designed course with visible progressive improvement seen at the end of the semester.
46	-
47	Great course but can look more into broadening the worldviews of students in a tasteful manner. The Perspectives lectures are wonderful but nothing in the course structure concretely pushes students to new levels of thinking or reaching new understandings of the world around them.
48	It was great.
49	This course helped me to improve my communication skills and which is so useful to me for which I thank you this course

25	Less interaction
26	Nothing as such
27	The material online wasn't clear.
28	Technical glitches, such as internet outages or platform malfunctions, can disrupt the learning process and cause frustration for both students and instructors.
29	at the same time it is difficult to find exactly what i am looking for due to the nomenclature.
30	Mainly, it owed to hardware problems like laptop battery running out while sitting in the DR and internet connectivity issues.
31	we can't get the peer feedbacks and peer learnings.
32	There was no online class.
33	nothing

7	Not able to connect to university WIFI and also no internet at times
8	Online courses can be updated more swiftly, ensuring that students have access to the latest information and trends in their field of study.
9	It would be more better if we could do one step ahead in online teaching like more lectures should be conducted online.
10	I didn't have any experience of learning through online in CEPT university. As our batch completed first semester in studio itself (offline). We didn't have any online class.
