

COURSE TITLE : Strange Details

COURSE CODE : AR2004

COURSE TYPE : Studio	NO OF STUDENTS : 14
FACULTY : Faculty of Architecture	NO OF RESPONDENTS : 14

INSTRUCTOR NAME: Mehul Bhatt	NO OF RESPONDENTS : 14
-------------------------------------	-------------------------------

STUDENTS REGISTERED BY FACULTY

Name Of Faculty	FA	FD	FM	FP	FT	Total
No. of Students	14	0	0	0	0	14
Percentage(%)	100	0	0	0	0	100%

■ **Course Average(COR AVG):** This is the average of the total responses for this course. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Individual Average(IND AVG):** This is the average score of the total responses for this instructor. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Faculty Average(FAC AVG):** This is the average of all responses for similar course type within the Faculty. For example, Faculty average of Studio IV offered by FA, represents the mean of all responses for Studio courses offered in FA during the given semester.

Scale: 1-3: Unsatisfactory, 4-6: Average, 7-8: Good, 9: Very Good, 10: Excellent

What did you like best about this course?

Sr No.	Comments
1	-
2	-
3	The coherence of all the exercises in helping shape skills/ critical thinking for the final outcome
4	-
5	The methodological build up within the way exercises were structured to make the following ones expand the understanding of construction better.
6	Great teaching
7	I particularly enjoyed the joinery model exercise as it provided a hands on experience and a clear understanding of how joineries work
8	Exploring details and tectonics part
9	The joinery exercise was great.
10	exploring materiality was something which taught me a lot but there could have been more on level to it, by exporting how they connect with another materials
11	The approach of giving practical knowledge and exercises structured to understand how to work with physical materials and handle them helped a lot in understanding its usage and nature.
12	helped in developing basic knowledge about structure and architectural resolution
13	The first 3 exercises were really nice... something more could be done about the architect's study. since has to be completed in a week's time... maybe a lecture about the architect or something would have helped.... the time between the structural review and the conceptual was just one lecture...I feel more tutor discussion during the time would have helped to refine our thinking and detail better. one of the reasons of the studio was not active after the structural review was that ig...
14	.

What would you like to change about the course?

3	-
4	-
5	Pacing of a few exercises, scale of project.
6	Nothing
7	Lesser time could be allocated to the first case study exercise and more of this time could be spent on detailing out the final project
8	timeframe for each exercise
9	The time for working drawing was very less. It must be increased.
10	if me working with the architect's deigning who doesnt share my ideaology was challenging.
11	The importance of working drawings could be increased which could help students further while applying for internships.
12	time period for each exercise
13	Since the final exercise had to do with an architectural style, I feel that the previous exercises could have some jist of the same. What if, from the very beginning the three exercises conducted had to do with the architect?

4	Very well structured, achieves intended learning outcomes effectively.
5	-
6	The course has a lot of learning but it was not at all sufficient for working drawing. So it is not a pure working drawing studio.
7	-

What did you like best about this instructor's teaching method / approach?

Sr No.	Comments
1	-
2	-
3	Encouraged open-minded thinking and pushed to extend our boundaries with decisions. He was able to identify what each student needed.
4	-
5	Very patient, encouraged out of the box approaches to solve problems that allowed us to explore things by ourself.
6	Great learning
7	-
8	getting into the details of things and digging out really hard for things
9	He has quite a good knowledge.
10	the types of question that are asked made me more active thinker
11	NA
12	very knowledgeable, lenient faculty
	The best class when I felt CEPT was the first exercise when we as a class was decoding and thinking of all possible conjectures... Thank you for

13	arranging one...wished for more of that
14	.

What would be your suggestions to improve the instructor's teaching?

Sr No.	Comments
1	-
2	-
3	-
4	-
5	Increasing number of discussions per week.
6	Nothing
7	-
8	*
9	He needs to improve his time management. He was not much involved in the design process which lead to inconsistent design development.
10	NA
11	NA
12	-
13	Felt the discussion remained primary and short...for the 20 scales....was expecting more... I understood what you were trying to say from the very 2nd week...
14	.

5	Very well-read on subjects related to course and more, encouraged holistic learning and development. Well-paced and patient.
6	An extremely supportive faculty who was not only well versed in the subject, but also helped and encouraged us to keep going
7	He does have knowledge but the way of interaction and presence in studio was not at all sufficient. This in the end affected the design development.
8	NA
