■ **Course Average(COR AVG):** This is the average of the total responses for this course. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Individual Average(IND AVG):** This is the average score of the total responses for this instructor. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Faculty Average(FAC AVG):** This is the average of all responses for similar course type within the Faculty. For example, Faculty average of Studio IV offered by FA, represents the mean of all responses for Studio courses offered in FA during the given semester.

Scale: 1-3: Unsatisfactory, 4-6: Average, 7-8: Good, 9: Very Good, 10: Excellent

What did you like best about this course?

Sr No.	Comments
1	Variety in activities
2	The importance it gave for the design process
3	.
4	The studio curriculum covered a variety of design problems and introduced unique design derivation techniques. Working and developing abstract ideas to develop our designs opened up a whole new side to design thinking. The studio was able to help me set a good foundation as an introduction to Level 2 from CFP. A lot was learnt by exploration in sections and models, we now have an idea of what establishes a land building relationship.

6	This is a very good course to develop foundational design thinking skills. Every part of the process led to an outcome that was unexpected but relevant.
7	-
8	everything
9	The overall structure of the course was excellent. Every new exercise encouraged conceptual and critical thinking.
10	Variety in learning
11	Great
12	-
13	working through sections and models. Abstraction of program to understand it deeper
14	It helped me consider a new aspect to take into consideration while designing

What would you like to change about the course?

Sr No.	Comments
1	Emphasis on learning about the land building relationship
2	.
3	.
4	Not a change as such, but as the studio progressed, the focus on the core ideas and establishing the land building relationship slowly faded away and towards the end it was just simply resolving the problems in the design.

5	No specific comments because the course is already well structured. It is a really good design studio in L2.
6	-
7	-
8	Should be taken up atleast once in the field to know about the major role play of land in designing phase to have an efficient builtform

9	The way Milind Sir gave feedback always encouraged conceptual and critical thinking. He didn't spoon-feed us, which was the best part because many things in the conceptual stage are such that it would be great if we figured it out by ourselves.
10	Indirect ideas

11	Great
12	-
13	patient and able to give constructive feedback without putting down the student
14	He always lets the students discover their own journey through the design process may it be wrong or right but focuses on that process to learn and never asserts his thought of the idea but let's you take it ahead
