

COURSE TITLE : Tectonic Operations IX

COURSE CODE : AR2016

COURSE TYPE : Studio	NO OF STUDENTS : 12
FACULTY : Faculty of Architecture	NO OF RESPONDENTS : 12

INSTRUCTOR NAME: Smit Vyas **NO OF RESPONDENTS : 12**

STUDENTS REGISTERED BY FACULTY

Name Of Faculty	FA	FD	FM	FP	FT	Total
No. of Students	12	0	0	0	0	12
Percentage(%)	100	0	0	0	0	100%

■ **Course Average(COR AVG):** This is the average of the total responses for this course. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Individual Average(IND AVG):** This is the average score of the total responses for this instructor. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Faculty Average(FAC AVG):** This is the average of all responses for similar course type within the Faculty. For example, Faculty average of Studio IV offered by FA, represents the mean of all responses for Studio courses offered in FA during the given semester.

Scale: 1-3: Unsatisfactory, 4-6: Average, 7-8: Good, 9: Very Good, 10: Excellent

What did you like best about this course?

Sr No.	Comments
1	The brief of the studio, the encouragement given in pursuing the unconventional.
2	the learnings from the course were great. the kind of output we generated was very unique and something to be extremely proud of
3	Learning outcome, rigour and the tutor
4	The level of detailing it goes into while not compromising on the form/design stage either
5	.
6	.
7	the detailing part of it
8	-
9	The design process from start till the end was very interesting and detailing out the design was an even better one!
10	The initial exercises of measure drawing with construction details of the given building (CHM) and form exploration. The entire course involved making models which brought in more clarity into designing and problem solving.
11	.
12	.

What would you like to change about the course?

Sr No.	Comments
1	-
2	NA
3	x
4	-
5	.
6	.
7	we should move to autocad so that the detailing part got more time
8	-
9	Nothing I believe. There was a lot to learn from the faculty and a lot to look up on for our future.
10	Should allow CAD after a point in the course.
11	.
12	.

3	.
4	-
5	if there was one to be written on; I felt like the TA could have been more engaging and involved in the designs rather than asking for the work. Given his knowledge and skill set he was highly qualified but rather showed a dull face when it came to these questions.
6	-

What did you like best about this instructor's teaching method / approach?

Sr No.	Comments
1	Very lively, interactive, funny, and perfectly strict at times
2	Smit is quirky in the way he teaches. He is probably more passionate about ur project than u.
3	Extreme but effective, always available and great to learn from
4	He is extremely passionate about the field and it creates a great atmosphere to work in. Extremely helpful and while he does not spoonfeed the students he also does not gatekeep information.
5	.
6	.
7	he know when to let us think and work on our idea
8	-
9	His notion of critical thinking and encouraging us to get out of our own problems rather than depending on him
10	A lot more lectures need to be provided on construction, detailing and making of the project since students without a previously done detailing studio find this studio difficult.
11	.
12	.

What would be your suggestions to improve the instructor's teaching?

5	.
6	
7	dont lose hope from us we can do it
8	-
9	Nothing... Could be a little sarcastic at times lol.
10	Could be more supportive.
11	.
12	.

Instructor Comments

2	had great fun working with him and Vihar.
3	.
4	—
5	-
6	Extremely talented and knowledgeable faculty. A brilliant person to converse with and discuss our queries. was a pleasure working with him.
7	The Assistant and Faculty should be more helping and supportive as a lot of times students do not know much about construction details.
