

COURSE TITLE : Space Kinematics

COURSE CODE : AR2021

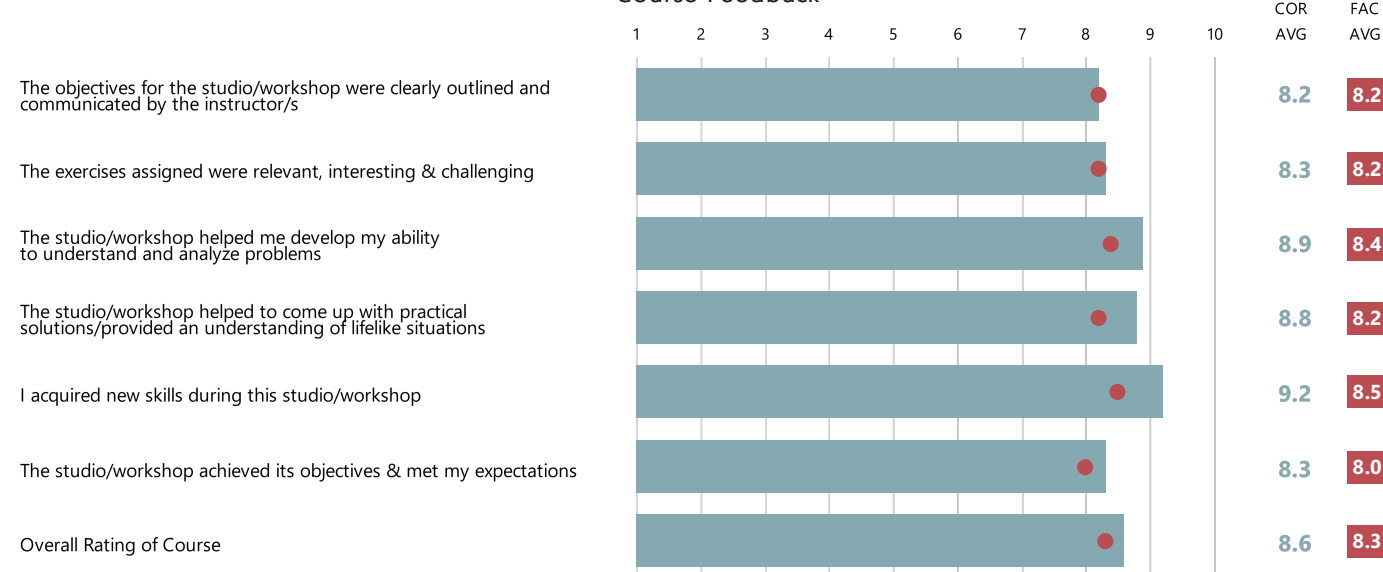

COURSE TYPE : Studio

NO OF STUDENTS : 16

FACULTY : Faculty of Architecture

NO OF RESPONDENTS : 16

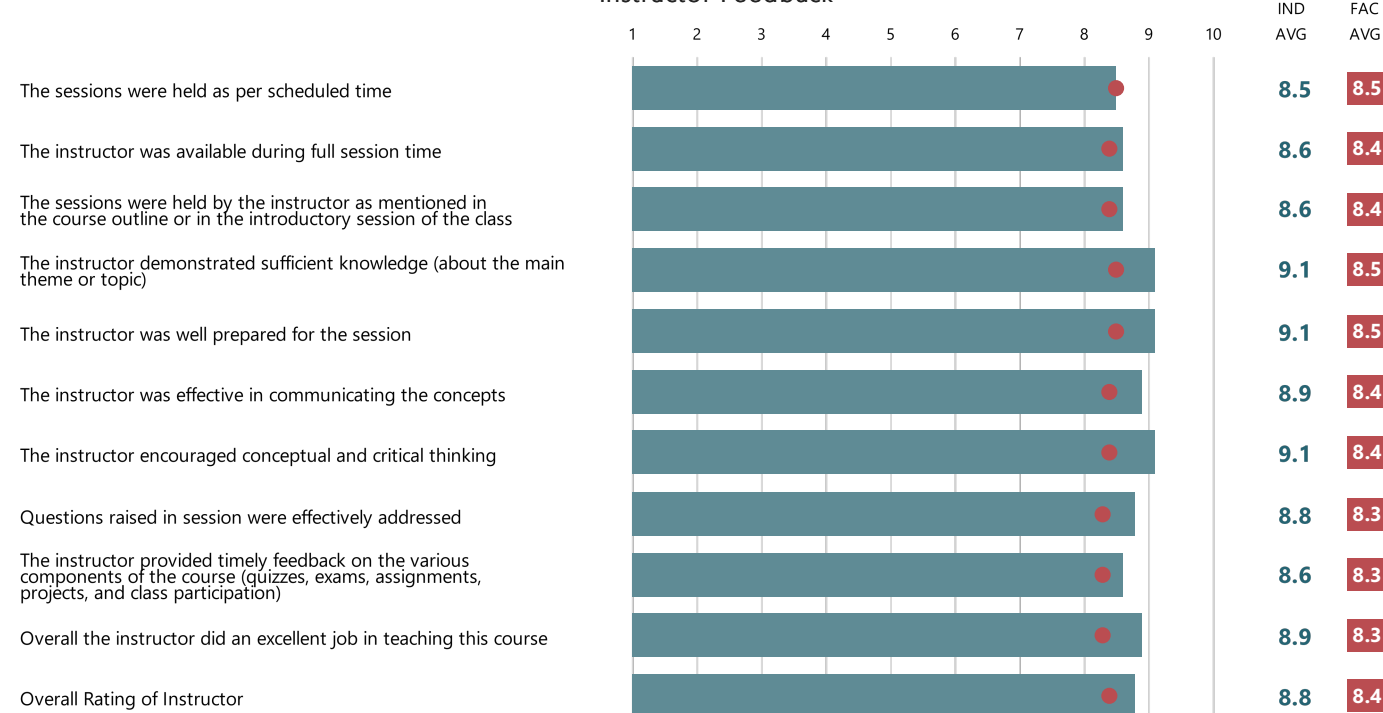

Course Feedback

INSTRUCTOR NAME: Anuj Anjaria

NO OF RESPONDENTS : 16

Instructor Feedback

STUDENTS REGISTERED BY FACULTY

Name Of Faculty	FA	FD	FM	FP	FT	Total
No. of Students	15	0	0	1	0	16
Percentage(%)	94	0	0	6	0	100%

■ **Course Average(COR AVG):** This is the average of the total responses for this course. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Individual Average(IND AVG):** This is the average score of the total responses for this instructor. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Faculty Average(FAC AVG):** This is the average of all responses for similar course type within the Faculty. For example, Faculty average of Studio IV offered by FA, represents the mean of all responses for Studio courses offered in FA during the given semester.

Scale: 1-3: Unsatisfactory, 4-6: Average, 7-8: Good, 9: Very Good, 10: Excellent

What did you like best about this course?

Sr No.	Comments
1	The course offers knowledge and an experience to design a very unique space by designing using kinetics as the main focus.
2	the involvement of kinetics in the design and making of 1:1 model
3	Great course, great brief, just a bit less structured.
4	.
5	The exercise of deconstructing cube
6	The concepts and exercises, on paper, were very interesting and structured such that it helped the process of designing progress steadily
7	The lineup of the process. The process is very involving and interesting.
8	.
9	the handson work coupled with theoretical knowledge which we gained helped us understand conceots clearly.
10	Thw kinetics
11	-
12	Gave an hands on experience with fabricating and working with different materials
13	It is an interesting studio and Kinematics is a fascinating field to be explored. The studio teaches how to solve design problems uniquely.
14	Exploration
15	The creative liberty and sufficient input of ones own ideas.
16	The faculty was very understanding and open to provide hear problems and provide solutions

What would you like to change about the course?

Sr No.	Comments
1	While the focus on kinetics in the main agenda of the studio, as a fifth semester student, a lack of push towards how to integrate the kinetic into architecture was felt and the entire design results as an aftermath of what the form of the pre chosen kinetic element allows. Rather, the form of the kinetic element emerging to achieve/enhance an architectural experience would have made more sense.
2	the design exercise should be more vigourous and detail
3	If it is structured properly and becomes a bit hectic then its perfect.
4	.
5	N/A
6	The implementation of the exercises was a little mismanaged leading to confusion and the feeling of being lost at times
7	NA
8	.
9	the timings can be more set and strict, this would help in setting a clear schedule.
10	At end, the focus shifted completely towards architecture, loosing importance of kinetics. That shouldn't be there.
11	requires better organisation and time management more time allocated to individual design than building the 1:1 in the beginning of the semester
12	Course has to be a bit more rigorous
13	The different exercises kept on clashing based on schedule and the studio was either too relaxed or extremely hectic at multiple times.
14	Completing more work
15	More studio sessions.
16	Nil

Course Comments

Sr No.	Comments
1	The course after completing 9 semester did not feel well structured for its age.
2	..
3	.
4	NA
5	.
6	Nice
7	need to have more classes per week so that doubts can be solved and progress can be made

What did you like best about this instructor's teaching method / approach?

Sr No.	Comments
1	
2	the faculty of the study was not insulting or degrading us like other faculties, they took care of our concern
3	A perfect studio faculty one can ask for.
4	.
5	His way of explaining is better
6	Anuj sir was very approachable and understanding of some of our shortcomings as first time designers. He also addressed all doubts, big or small, in a non judgmental or demeaning manner. Anuj Sir has a keen understanding of his field and constantly provided resources and references to help us understand as well.
7	He gave references for every topic explained and hence helped a lot.
8	.
9	his approachable nature along with the knowledge he has helped us learn concepts quicker.
10	All

11	-
12	Was quick to clear the doubts, was available.
13	Anuj sir is extremely knowledgeable and compliments Muntaha sir's creativity by providing solutions for every design.
14	Practical
15	Critical thinking and listening to students
16	Allowed logical thinking with consideration to the creative designing

What would be your suggestions to improve the instructor's teaching?

Sr No.	Comments
1	
2	the outcome of this studio can be more , faculty can make more disciplined schedule and make students comeup with that
3	Give a bit more time for discussions, like atleast four times a week for good 7-8 hours, rest its perfect.
4	.
5	He can be a little strict
6	-
7	NA
8	.
9	being a little more strict when it comes to submission timings.
10	None
11	-
12	Can be a bit more rigorous.
13	A detailed insight or an introductory course on mechanism or mechanics.
14	Na
15	None
16	Nil
