

COURSE TITLE : Detailing and Communicating Architecture

COURSE CODE : AR2034

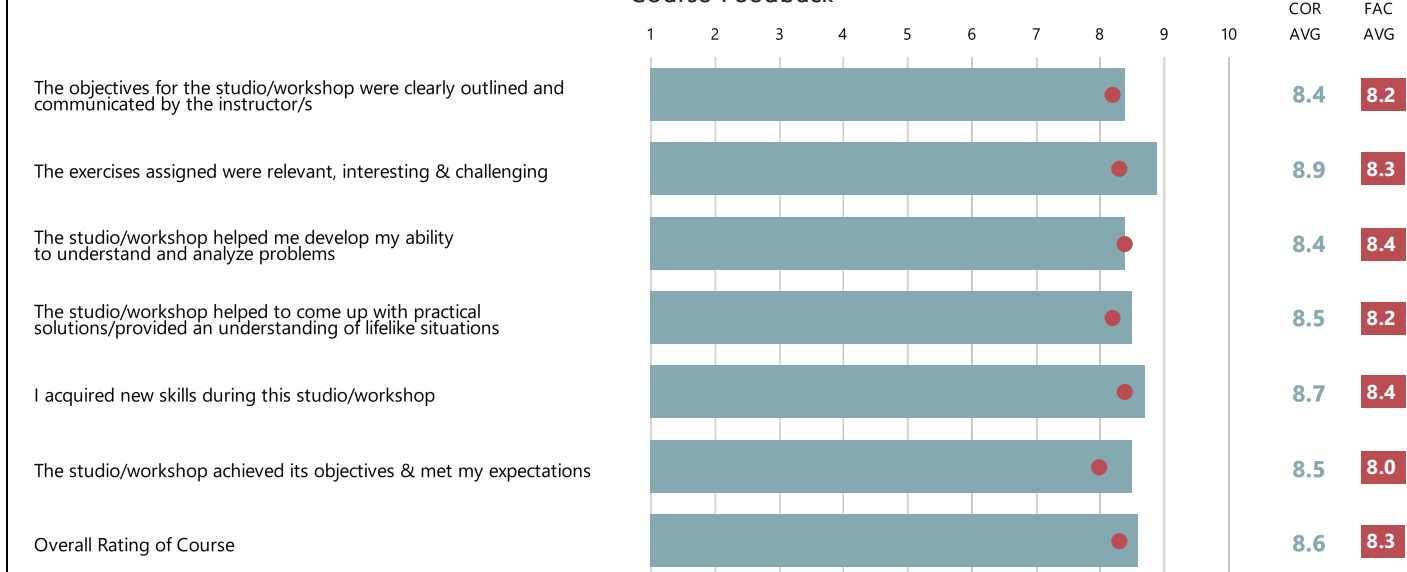

COURSE TYPE : Studio

NO OF STUDENTS : 11

FACULTY : Faculty of Architecture

NO OF RESPONDENTS : 11

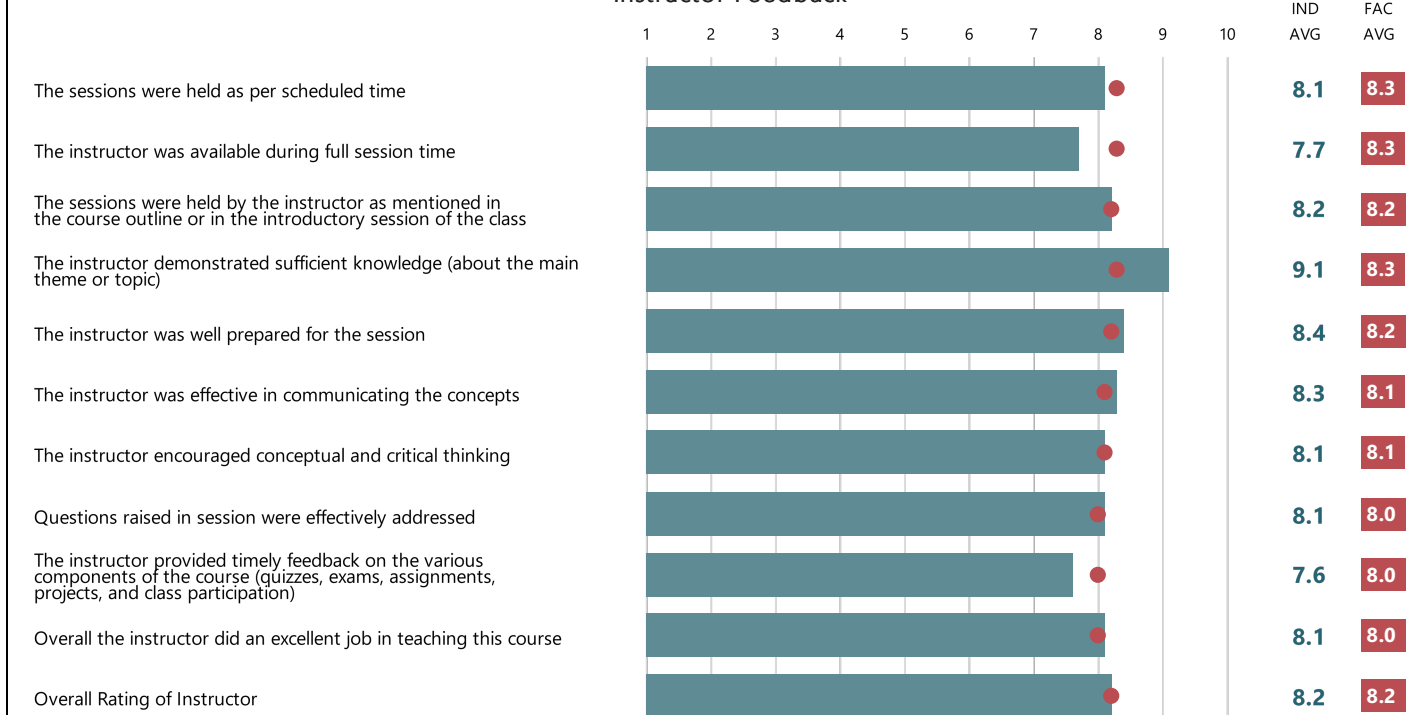

Course Feedback

INSTRUCTOR NAME: Sankalpa

NO OF RESPONDENTS : 11

Instructor Feedback

STUDENTS REGISTERED BY FACULTY

■ **Course Average(COR AVG):** This is the average of the total responses for this course. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Individual Average(IND AVG):** This is the average score of the total responses for this instructor. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Faculty Average(FAC AVG):** This is the average of all responses for similar course type within the Faculty. For example, Faculty average of Studio IV offered by FA, represents the mean of all responses for Studio courses offered in FA during the given semester.

Scale: 1-3: Unsatisfactory, 4-6: Average, 7-8: Good, 9: Very Good, 10: Excellent

What did you like best about this course?

Sr No.	Comments
1	Everything
2	-
3	Everything in the course.
4	.
5	The TA
6	.
7	-
8	keyur-the ta
9	The best thing about the course was the structuring of exercises.
10	The way the geometries and structural relationships were explored. It was interesting to note the different ways systems interacted with each other.
11	Good range of exercises. Learning outcome was great

What would you like to change about the course?

Sr No.	Comments
1	Nothing
2	-
3	Nothing.
4	.
5	I wish for more personal discussions and a structured schedule to meet the tutor's expectations.
6	.
7	The course was well structured however some exercises could have been timed better. In my opinion, spanning and stacking required more time and discussions with the faculty. Feedback sessions with structural engineers when designing would have been useful.
8	more one on one discussions. and would like him to be up front with what he wants and encourage us to do better
9	Lesser time could be given to working time and more time should be given to the spanning exercise.
10	The schedule be followed more closely. The last exercise was introduced too late, as a result of which we couldn't quite keep up with the final outcome.
11	Better timelines in studio structure

What did you like best about this instructor's teaching method / approach?

Sr No.	Comments
1	Everything
2	-
3	Everything.
4	.
5	His knowledge of the concepts and ability to answer technical doubts
6	.
7	-
8	his knowledge and able to answer most of the questions promptly
9	The instructor gave space to work on things by ourself. He didn't hand hold and let us learn and do things by our own. The discussions were brief, to the point and sufficient to move to the next step.
10	The ability to take a step back and let me generate and execute my own ideas. It was interesting to let things pan out for a sufficient period of time instead of rushing everything.
11	Encouraging self reliance through self explorations allowing us to incorporate what we want in our designs

What would be your suggestions to improve the instructor's teaching?

Sr No.	Comments
1	No
2	-
3	Nothing.
4	.
5	Please provide more personal discussions, be more organized in terms of scheduling exercises, and push us to work harder.
6	.
7	-
8	to be more organised and to know how much time each exercise requires
9	A little more input when the exercises were going on would have helped. It seemed that he was not interested in the studio and the time lag in giving input on the ongoing work might have led to things slowing down

10	I think a more involved approach is required to stick to deadlines. More interactions with them were necessary.
11	More discussions on individual designs atleast for L2 level
