What did you like best about this course?

Sr No.	Comments
1	The commitment to the formal language that the students arrived at in later stages
2	I liked the part that it pushed my boundaries to think Abt the building form and interpreting it Also the representation style
3	.
4	The studio was well laid out.
5	-
6	nothing
7	Learning how to use digital tools.
8	Helped me learn a different menthol of thinking along with a lot of softwares.
9	Need more architectural basis
10	The studio had a very enjoyable learning process.A lot of software skills were gained along with better designing and analytical skills along with time management.
11	well structured
12	It provides an exposure to the existing and up and coming methods and workflows in architecture.
13	-
14	Course offers learnings very different from other studios where architecture is taught through plans and sections. Learnt to think out of the box. Both the tutors explain through a lot of exisiting architectural projects which gives an insight into the real world.
15	It gave a new perspective and taught me a lot of software skills

6	nothing
7	His involvement and interest in the work, plus his abundance of knowledge in the feild.
8	Approachable and encouraged creative thinking.
9	Good knowledge
10	He was a very good teacher who guided us through our design journey in this studio. He gave very valuable feedback and insights about our designs, and the discussions with him were also great and very interactive.
11	supports and asks to develop ideas that you like instead of blindly making
12	Encourages critical thinking by raising questions and provides effective feedbacks and references.
13	-
14	Explains through a lot of drawings and annotations which makes it very clear to understand. It is fun to be in his studio.

3	The sessions with him were fun and interactive and did not feel like a lecture. Also the references given by him were really amazing and helpful.
4	He is a very friendly tutor who gives very interesting and valuable feedback. He was always very helpful and thoughtful and guided us in each and very step of our design process in this studio. He taught software???'s effectively, and solved doubts patiently .Discussions with him were always very enjoyable and the ideas he suggested were always interesting. Surely,he is one of the best tutors I have seen in this university.
5	-
6	-
7	Everything was really good except the for the fact that he spends way too much time on selected few students while the others are always waiting or get discussion in the end or no discussion with him.
