

COURSE TITLE : Quantitative Analysis and Reasoning

COURSE CODE : UP4609

COURSE TYPE : Lecture	NO OF STUDENTS : 128
FACULTY : Faculty of Planning	NO OF RESPONDENTS : 124

INSTRUCTOR NAME: Mahroof Mohammad **NO OF RESPONDENTS : 124**

STUDENTS REGISTERED BY FACULTY

Name Of Faculty	FA	FD	FM	FP	FT	Total
No. of Students	0	0	0	127	0	127
Percentage(%)	0	0	0	100	0	100%

■ **Course Average(COR AVG):** This is the average of the total responses for this course. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Individual Average(IND AVG):** This is the average score of the total responses for this instructor. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Faculty Average(FAC AVG):** This is the average of all responses for similar course type within the Faculty. For example, Faculty average of Studio IV offered by FA, represents the mean of all responses for Studio courses offered in FA during the given semester.

Scale: 1-3: Unsatisfactory, 4-6: Average, 7-8: Good, 9: Very Good, 10: Excellent

What did you like best about this course?

Sr No.	Comments
1	We can make better graphs
2	Analyze the city at a granular level and acquire advanced Excel techniques for precise calculations and the extraction of additional city-level data.
3	Practical implementation from our primary survey
4	The teaching methods are good. All the efforts taken by the tutors are worth it. Explaining concepts making it as easy as they can makes learning and understanding easy.
5	They try their best to make sure we understand the concept
6	The concepts and applications
7	Revisiting the previous day's study
8	The tutors were really patient in helping us understand the concepts better.
9	The course achieved its objectives and met my expectations
10	well structured and tutorials helped in performing the analysis
11	Good clarity on using and analyzing data on Excel, beyond the basic usage of the software. Made perspectives clearer in terms of understanding the data.
12	The course is informative and helped to explore the analytical aspects of data.
13	The assignments helped me understand the application of concepts with respect to studio.
14	The course objective
15	Tutorial sessions were really helpful
16	
17	Good learning
18	good
19	tutors and the subject's applicability
20	The faculties made sure every student understood the subject. Intermediate tests help in better understanding of the subject.
21	The hands on experience of how to use some concepts of analysis to yield results and understand them.
22	It is very Informative.
23	The course explained the importance and uses of quantitative analysis .The tutors were willing to come down to our level and explain things.The course helped me improve my excel knowledge and it's applications
24	It helped with the other courses
25	Learning data analysis and presentation.
26	The course was interesting to learn new things
27	The tutors have been patient and diligent with the whole cohort. This has allowed me to recognize my hidden affinity towards quantitative data analysis by removing my fear of numbers.
28	we learned to analyze the data with help of excel
29	The professors were very helpful and were very prompt to reply when any doubt was posted.
30	It taught me how to analyze better
31	Structure of the process
32	nandan sir was efficient in making them understanding the concepts easily.
33	how it was associated with urban planning
34	Practical application of Excel and the tests we performed that were taught.
35	The structure is good
36	Helps me to create graphical representations with data analysis
37	Learnt excel
38	Good explanation, Tedious tasks
39	The way lecture were structured and regular test taken in class gave revisions.
40	efforts of tutors
41	Analysis
42	Teaching method of Nandan sir was really simple and very helpful for us.
43	The assignments were based on real life applications rather than just producing what was learnt. It helped us understand the concepts in the long run. The professors were very approachable and were ready to help with our doubts even for the quantitative analysis related work in UTC.
44	Hands-on practice of excel along with theory
45	integrated with studio
46	Very relevant
47	
48	.
49	Ok
50	this course taught us how well we can find relations and keep data correctly
51	Learnt more in short time
52	Everything was explained well. Starting from the most basics.
53	How teachers try to engage everyone and make sure everyone understands the basic fund of the study. They also help in real application of the learnings which actually makes it more interesting to learn.
54	Exploring new ways of analysis
55	the course helped us analyze and synthesize better analysis in other subjects
56	The tutorial with appropriate real time examples
57	the relevance of studying this and its application was explained well and the exercises helped us try out its direct application
58	Everything
59	.

60	Good
61	learnt more necessary excel knowledge
62	Tye assignment though seems difficult at first really opened lot of avenues to think and eventually apply in the next courses to come
63	
64	-
65	It was designed with timeline.
66	The course was introduced from the basics anwell structured covering all important topics and giving us adeqaute skill for next few smesters.
67	It developed analytical thinking and excel eased all our works. Excel helped a lot in building critical thinking.
68	Practicality
69	It was always running parallel to the studio, and we were able to relate its importance to the methodology.
70	Teaching techniques
71	Application and understanding the subject by using it in other studio(UTC)
72	the corse helped in making my understanding better about excel and better indsterstanding abt graphs and data
73	a better understanding of the introduction of the graphical representation and the data analysis which was explained properly and each term can be quantified.
74	All doubts were addressed simultaneously, and extensive efforts were invested in revisiting each topic multiple times until everyone comprehended it.
75	Overall perspective of analysis through excel has enhanced
76	Well structured.
77	The assignments/field visits/practical helped improve my understanding of the subject
78	Learning the importance of the subject and its practical use in the planning industry or any research we will do in future.
79	How useful excel can be. Various functions that can be performed on it.
80	Teaching method and improved Excel skill
81	The course helped me to understand the Analysis of various data which as a planner is collected by me . The analysis skills are strengthened at various levels and this shall help me for my future in the master???'s program . As a civil engineer the subject was relatable and helped me to strengthen my analysis skills .
82	The structure and applications
83	
84	The course was very much needed as this helped us in data cleaning, and identifying how to sort data and methods to find the relationship between those data
85	It covered the basics of all the subjects.
86	The best part was the numerous concepts that were incorporated and the clear linkage to use them practically
87	Very helpful in understanding complex data
88	The quizzes really helps to memorize about the previous class and further help us to engage in the next lecture.
89	it helped me to built my analytical skills and learnt the functions and formulas in excel which eased my work.
90	We'll aligned with other mandatory courses, hence the concepts can understood well
91	i like how to get easy tables
92	NA
93	
94	I like how quantitative analysis courses often focus on practical, real-world applications. The ability to use data and mathematical models to solve complex problems is a valuable skill.
95	The course is valuable for advancing analytical skills. The topics covered are instrumental in conducting comparative analyses, a crucial aspect of further studies.This course afforded me a practical opportunity to work with Excel and acquire techniques for conducting various tests
96	Learning lots more statistical data than I knew but time constraints rushed the overall process of understanding and leraning this
97	Punctuality
98	The course materials (e.g. text, lecture notes, readings, etc.) were helpful in learning and understanding the content taught
99	Structure is well Constructed.
100	Learned excel in detail
101	Applying the knowledge learned in this course to UTC analysis was a positive experience for me.
102	
103	Overall it was informative
104	Teaching methods
105	Input lectures
106	New methods being taught
107	The assignments really helped with understanding the subject
108	Well structured
109	The value it creates in our understanding of our precinct in terms of data
110	The learning of the subject and its practical use.
111	I appreciated the effort of the tutors in making us understand the concept of whatever analysis we were working on for our studio. The hands-on learning session greatly helped me in understanding the subject better.
112	That is how we can relate our findings and observations in terms of quantitative analysis.
113	it gave a different approach to look at the data and how to work with numbers
114	Analysis
115	a.
116	
117	excel
118	Learning excel clearly
119	It was interesting to analyse the captured data throughout the foundation into a systematic manner through graphs and charts in a very efficient way.
120	Working with our own data (HH Survey) made it easy to understand.
121	The comprehensive learning long with weekly input lecture on the usage of excel with respect to the concepts helped in the overall understanding of the course. The application of the concepts in the real life problems helped in the better understanding of the course.
122	Course structure and way of structuring assignments.
123	.

What would you like to change about the course?

Sr No.	Comments
1	If possible increase the number of hands on excel class
2	Nothing
3	Nothing particular
4	All good.
5	Three tutor lecture into a one tutor lecture
6	Nil
7	NA
8	-
9	the assignments were given
10	not have too many tests, better if could reduce the number of tests and just have 2 submission
11	Nothing as such.
12	The teaching approach could have been in a different way.
13	More assignments could have been given instead of weekly test as assignments helped in better understanding.
14	The structuring and guidance
15	mock assignments before final assignment
16	
17	more active teaching associates
18	no
19	a slower pace of teaching during tutorial
20	None
21	Nothing
22	Nothing
23	The course was well structured, more assignments would give us more clarity on the concepts.
24	The faculty
25	-
26	None.
27	Nothing comes to my mind. The course has been designed well by the tutors and the pace is adaptable as well. The topics are not only relevant to current trends and needs of the market but also have been delivered in a way that makes them easier to grasp.
28	no change
29	-
30	.
31	Nothing
32	NA, more hands on classes are appreciated rather than tutorials.
33	something that will keep everyone more active
34	The structure of the course as at some moment of time I felt it to be too fast but the faculties still made us cope with it. And use of tests more in terms of its application can be enhanced.
35	But time for some topic is less
36	Post lunch class should be changed.
37	The way of teaching
38	Going too fast, sometimes not able to grasp that much
39	More study materials that can relate with our future analysis.
40	more practical classes
41	Practice more
42	Nothing
43	Answer keys were not always provided for the class tests until asked. So learning where we made mistakes was difficult.
44	NA
45	nothing
46	Nothing
47	
48	.
49	Ok
50	nothing
51	No change
52	-
53	I think the course was overall very well structured so there's not really a thing that I would like to change. Maybe keeping the lectures on Monday was a bit hectic as for Monday multiple submissions are asked for.
54	exposure to more enhanced data analysis tools such as R, python, Power BI
55	the course should have had more practice exercises
56	The timings
57	the group of students addressed at once is too big. it would be better if the tutorials can be in smaller focussed groups so the practicals are understood better
58	Nothing
59	.
60	No change
61	its good
62	The pace of the course. It would have better if we could spend a little more time on each topic and thus also evaluate the practical applications of each process

63	
64	-
65	
66	Nothing. The structure of weekly exams and weekly classes works well.
67	Nothing.
68	Assignment are not structured well
69	The management of the course timeline can still be improved. Also, avoid integrating group assignments into the curriculum.
70	Tests
71	comprehensive study of subject
72	nothing
73	na
74	Little more lectures
75	Intensity of the subject. In few assignments our UTC submissions were compromised
76	
77	
78	Clarity in the topics. The subject is new to me and it wasn't easy to understand the application of each topic appropriately.
79	Nothing
80	Nothing
81	More exercises need to be conducted on regular intervals . More one on one corrective majors to be suggested .
82	NA
83	
84	More sessions should be added
85	The time given to actually understand the concept and to work upon it was not satisfactory. it was more of a time problem was hectic as the work was done for the sake of doing.
86	More in class tutorials can be incorporated
87	nothing
88	None.
89	it was overall good so i want nothing to be changed about the course.
90	Few classes to be more focused on understanding it's application in real time scenarios.
91	nothing
92	NA
93	
94	no
95	The tutorial was delivered at a fast pace, making it challenging to grasp the steps. Occasionally, calculations were left unfinished due to insufficient time for problem-solving. Written assignments prove to be a more effective assessment method compared to weekly tests. The course could focus more on practical exercises rather than relying heavily on written tests.
96	More small assignments in tutorials rather than quiz as there was no time to study for the quizzes
97	Need time to breathe
98	.
99	I don't feel to change anything is completely good.
100	nothing
101	Having smaller classes for more in-class practice would be great, rather than having one big class with 150 students.
102	
103	nothing
104	Better assignments
105	It CAN BE MORE WELL PLANNED, COMMUNICATION ISSUES
106	Best possible method
107	More assignments - less tests
108	Nothing to change
109	More time for each topic
110	Nothing
111	The tight schedule sometimes at times made it difficult to process the learning of the scheduled day.
112	More mock up tests and presentations
113	nothing
114	Nothing
115	a.
116	
117	n/a
118	The quiz coul be take with a little extra time and proper questions given prior for preparing
119	.
120	Could provide better notes (link to notes), the ppt provided don't give full information. And searching the web for information gets confusing sometimes.
121	If assignments were given instead to quizzes, that would have been more helpful in gaining a holistic understanding of the course as assignment allows us to dive deeper into the concept and helps in understanding the nuisances of the concept.
122	Nothing.
123	.
124	No Comments

Course Comments

Sr No.	Comments
1	-
2	NA

3	-
4	not great method.
5	good
6	Everything is good.
7	None
8	good
9	Nothing
10	Great course. Learnt a lot and also understand it's practical aspect.
11	Good explanation and great individual comment
12	Please also inculcate the practical programs instead of going theoretical to clear the concepts.
13	Course transition could be more clear
14	NA
15	It was helpful in understanding the studio
16	,
17	Ok
18	It was well structured and the study materials were very helpful.
19	Weekly quiz is a better idea than weekly assignments and that was implemented so it was more productive that way
20	-
21	Would have be nice if it would have been the first class of the day
22	none
23	None
24	TAs for the course could be more effective and helpful.
25	Nil
26	--
27	The course could've been managed in a better manner so that UTC would've not been hindered
28	The Excel tutorials were mainly oriented towards following the steps and not understanding the reasons behind doing it. However, the reason and application were explained upon asking. The clarity gained through assignments given.
29	This course in the masters of planning program , was the must required for analysis off data . without the skill off critical analysis it would have been difficult to synthesis and prepare strategies. This course has indeed value added in my skills . I hope this will help me for my future semesters as well .
30	It was well timed and assignments are insightful.
31	None.
32	.
33	-
34	..
35	This course really helped in the studio in the last exercises
36	NA
37	Mode of instruction
38	a
39	Overall the course was nice to learn
40	No Comments

What did you like best about this instructor's teaching method / approach?

Sr No.	Comments
1	Was quite patient while the explanation
2	good
3	Interactive sessions
4	Good teaching skills
5	..
6	Overall teaching approach was good
7	Everything
8	-
9	Questions raised in session were effectively addressed
10	good at explaining the concepts
11	Giving clarity on the most basic and most complex issues with resolving and analysing data.
12	NA
13	Examples w.r.t real life scenarios were given which helped us to understand the application better.
14	his sense of humour
15	Sense of humour
16	
17	not great method.
18	good
19	-
20	-
21	The way each concept was detailed in the class.
22	Teaching method is very good.
23	The instructor has a confusing way of teaching which at first confused us and then gives us more clarity.
24	N/A
25	-
26	Sir is an excellent tutor
27	Mahroof sir has always encouraged us to think beyond the confines of the textbook understanding of the subject and that has helped us elevate beyond the working understanding of the subject

28	good
29	-
30	.
31	Explanation
32	I found them a little bit complex , as we come from different backgrounds , they need to simplify the things a little bit .
33	good
34	Him coming in between and putting a one-liner which makes us think about that topic in a much deeper way and makes the subject fun.
35	But good examples
36	Like the way of taking classes and clarifying doubts.
37	Nothing
38	Good explanation
39	Nothing
40	explanatory approach,
41	Understanding of the complex theory
42	Everything
43	Classes were a little slow.
44	NA
45	very patient step by step teaching method
46	Made it easy
47	
48	,
49	Ok
50	again his teaching methodology
51	Good teaching
52	Cleared our basic concepts very well.
53	He's trying to make students engage in looking for answers on their own so that it can stimulate their thinking process
54	-
55	Good sense of humour while teaching made the course interesting
56	Easy in his teaching process
57	patient and explains well
58	Good
59	.
60	Good
61	good teaching
62	.
63	
64	-
65	
66	Good in teaching with examples
67	Sir was good. He taught each and every concept
68	Humble teaching
69	Time Management
70	Teaching methods
71	sense of humour
72	made us understand the concepts in better way
73	better understanding
74	Calm approach
75	Explanation of topics
76	Very Approachable Tutor
77	
78	Good clarity was imparted to the concepts used.
79	---
80	Teaching method and encouragement for critical thinking.
81	The teaching methods were more practical and relatable . The teachings allowed me to relate with the studio and the surveys conducted by me.
82	The interactive sessions and presentation
83	
84	On spot with the topic and was quick in identifying the problems faced by the students during the tutorial sessions
85	he told about extra concepts
86	His understanding of the concept
87	His examples at every concepts
88	He tries to ignite our thoughts beyond the basics.
89	sir taught us patiently and solved all our doubts
90	Gives an easy approach to problem solving.
91	good
92	NA
93	
94	method of teaching
95	The explanations were thorough, and the tutors were accommodating during the session. Questions were addressed promptly and effectively.
96	References to books and case studies
97	Knowledge

98	The instructor encouraged conceptual and critical thinking
99	Good Analytical knowledge and way of Explanation.
100	Explanation
101	He is well-versed in the subject matter.
102	
103	Cooperation
104	NA
105	.
106	His knowledge on the subject
107	The humour he brought in the classes
108	Good
109	His simplicity on explaining few examples related to the subject
110	Taught by giving clear examples.
111	His proactive approach to the doubts the students had.
112	His way of delivering amplex in humorous way
113	the patience
114	Good
115	a.
116	
117	language
118	The way he makes us understand concept
119	.
120	Gives real time and practical examples which makes it easy to understand.
121	The knowledge base of the tutor is really strong, he promotes critical thinking on the concepts by regularly posing the questions to the students.
122	Taught how to select variables, correlate them properly and then represent the correlation in appropriate manner.
123	.
124	No Comments

What would be your suggestions to improve the instructor's teaching?

Sr No.	Comments
1	Nothing as such
2	good
3	Nothing particular
4	All good
5	.
6	Simpler examples to explain complicated concepts. Explain all concepts in English as not all of us know the language.
7	NA
8	-
9	The instructor was effective in communicating the concepts
10	na
11	Nothing.
12	NA
13	Some of the concepts could have been explained in a simplified manner.
14	ability to bridge communication gap and knowledge gaps
15	Improve Interaction, Enhance clarity in instructions and explanations to ensure all students can easily grasp, Overcomplication of concepts
16	
17	not great method.
18	no
19	-
20	None
21	Nothing.
22	Nothing
23	The tutor should be a bit loud and clear. At times it is difficult to understand the concepts because of this.
24	Teaching style
25	-
26	None
27	No comments! Mahroof sir's method is excellent.
28	no
29	-
30	.
31	Nothing
32	na
33	can be more specific
34	A little with the mic thing. Sir is soft-spoken so sometimes the words are not able to be heard.
35	Can't hear, the volume is too low
36	I am okay with the way of teaching
37	The way of presenting
38	None
39	Nothing
40	clarity in doubts asked

41	Speak louder
42	Nothing
43	Classes were a little slow and repetitive.
44	NA
45	nothing
46	Nothing
47	
48	.
49	Ok
50	nothing
51	No change
52	-
53	But we are very new to the subject so it becomes hard to grasp the point that he's making
54	-
55	NA
56	More examples while teaching
57	sometimes the explanations extend too long and make it complicated
58	Nothing
59	.
60	No change
61	understaning of concepts gets bit difficult
62	.
63	
64	-
65	
66	Could be more strong communication
67	Nothing
68	Slow approach
69	Need to give real-life examples to explain the concepts and be more patient.
70	All is good
71	should be teaching more concepts to students in the classroom, as the other two faculty members did.
72	nothing
73	no
74	no
75	NA
76	
77	
78	None.
79	Nothing
80	nothing
81	The teachings were good , though some ways of taking live examples and variables from routine will help in connecting more with the course content .
82	NA
83	
84	To deliver more lectures
85	can be a bit more clear and easy as it becomes tough as the course is new for the understanding.
86	Interaction and examples in practical using it can be incorporated
87	nothing
88	None.
89	nothing
90	Solving questions in Excel along giving real time scenarios.
91	no
92	NA
93	
94	i like his method of teaching
95	explanation needs to be in more simple way.
96	tutorials were starting to not be very effective by the end of the semester
97	More engaging
98	.
99	It's Good.
100	nothing
101	His soft speaking style sometimes makes it difficult for me to understand or concentrate on what he is saying. and sometimes not using mic in the classroom further adds to the challenge.
102	
103	-
104	Less interactive amongst the three
105	.
106	Nothing
107	No comments
108	Nothing
109	it was good
110	Nothing

111	Nothing
112	Less complications
113	nothing
114	Nothing
115	a.
116	
117	N/A
118	Nil
119	.
120	Could help if lectures were increased for better understanding of certain topics. Some complicated topics are difficult to grasp in one session.
121	The pace of his sessions was a bit too fast, which made the grasping of concept difficult.
122	Nothing.
123	.
