

COURSE TITLE : Quantitative Analysis and Reasoning

COURSE CODE : UP4609

COURSE TYPE : Lecture	NO OF STUDENTS : 128
FACULTY : Faculty of Planning	NO OF RESPONDENTS : 124

Course Feedback											COR AVG	FAC AVG
	1	2	3	4	5	6	7	8	9	10		
The objectives for the course were clearly outlined and communicated by the instructor/s	●										8.4	
The course was well structured	●										8.4	
The course materials (e.g. text, lecture notes, readings, etc.) were helpful in learning and understanding the content taught	●										8.1	
The assignments/field visits/practicals helped improve my understanding of the subject	●										8.4	
The assignments were promptly evaluated and comments were given	●										8.4	
The course achieved its objectives and met my expectations	●										8.3	
Overall Rating of Course	●										8.3	

INSTRUCTOR NAME: Tushar Bose	NO OF RESPONDENTS : 124
------------------------------	-------------------------

Instructor Feedback											IND AVG	FAC AVG
	1	2	3	4	5	6	7	8	9	10		
The sessions were held as per scheduled time	●										8.8	
The instructor was available during full session time	●										8.9	
The sessions were held by the instructor as mentioned in the course outline or in the introductory session of the class	●										8.9	
The instructor demonstrated sufficient knowledge (about the main theme or topic)	●										8.8	
The instructor was well prepared for the session	●										8.8	
The instructor was effective in communicating the concepts	●										8.6	
The instructor encouraged conceptual and critical thinking	●										8.7	
Questions raised in session were effectively addressed	●										8.8	
The instructor provided timely feedback on the various components of the course (quizzes, exams ,assignments, projects, and class participation)	●										8.6	
Overall the instructor did an excellent job in teaching this course.	●										8.7	
Overall Rating of Instructor	●										8.8

■ **Course Average(COR AVG):** This is the average of the total responses for this course. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Individual Average(IND AVG):** This is the average score of the total responses for this instructor. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Faculty Average(FAC AVG):** This is the average of all responses for similar course type within the Faculty. For example, Faculty average of Studio IV offered by FA, represents the mean of all responses for Studio courses offered in FA during the given semester.

Scale: 1-3: Unsatisfactory, 4-6: Average, 7-8: Good, 9: Very Good, 10: Excellent

What did you like best about this course?

Sr No.	Comments
1	We can make better graphs
2	Analyze the city at a granular level and acquire advanced Excel techniques for precise calculations and the extraction of additional city-level data.
3	Practical implementation from our primary survey
4	The teaching methods are good. All the efforts taken by the tutors are worth it. Explaining concepts making it as easy as they can makes learning and understanding easy.
5	They try their best to make sure we understand the concept
6	The concepts and applications
7	Revisiting the previous day's study
8	The tutors were really patient in helping us understand the concepts better.
9	The course achieved its objectives and met my expectations
10	well structured and tutorials helped in performing the analysis
11	Good clarity on using and analyzing data on Excel, beyond the basic usage of the software. Made perspectives clearer in terms of understanding the data.
12	The course is informative and helped to explore the analytical aspects of data.
13	The assignments helped me understand the application of concepts with respect to studio.
14	The course objective
15	Tutorial sessions were really helpful
16	
17	Good learning
18	good
19	tutors and the subject's applicability
20	The faculties made sure every student understood the subject. Intermediate tests help in better understanding of the subject.
21	The hands on experience of how to use some concepts of analysis to yield results and understand them.
22	It is very Informative.
23	The course explained the importance and uses of quantitative analysis .The tutors were willing to come down to our level and explain things.The course helped me improve my excel knowledge and it's applications
24	It helped with the other courses
25	Learning data analysis and presentation.
26	The course was interesting to learn new things
27	The tutors have been patient and diligent with the whole cohort. This has allowed me to recognize my hidden affinity towards quantitative data analysis by removing my fear of numbers.
28	we learned to analyze the data with help of excel
29	The professors were very helpful and were very prompt to reply when any doubt was posted.
30	It taught me how to analyze better
31	Structure of the process
32	nandan sir was efficient in making them understanding the concepts easily.
33	how it was associated with urban planning
34	Practical application of Excel and the tests we performed that were taught.
35	The structure is good
36	Helps me to create graphical representations with data analysis
37	Learnt excel
38	Good explanation, Tedious tasks
39	The way lecture were structured and regular test taken in class gave revisions.
40	efforts of tutors
41	Analysis
42	Teaching method of Nandan sir was really simple and very helpful for us.
43	The assignments were based on real life applications rather than just producing what was learnt. It helped us understand the concepts in the long run. The professors were very approachable and were ready to help with our doubts even for the quantitative analysis related work in UTC.
44	Hands-on practice of excel along with theory
45	integrated with studio
46	Very relevant
47	
48	.
49	Ok
50	this course taught us how & well we can find relations and keep data correctly
51	Learnt more in short time
52	Everything was explained well. Starting from the most basics.
53	How teachers try to engage everyone and make sure everyone understands the basic fund of the study. They also help in real application of the learnings which actually makes it more interesting to learn.
54	Exploring new ways of analysis
55	the course helped us analyze and synthesize better analysis in other subjects
56	The tutorial with appropriate real time examples
57	the relevance of studying this and its application was explained well and the exercises helped us try out its direct application
58	Everything
59	.

60	Good
61	learnt more necessary excel knowledge
62	Tye assignment though seems difficult at first really opened lot of avenues to think and eventually apply in the next courses to come
63	
64	-
65	It was designed with timeline.
66	The course was introduced from the basics anwell structured covering all important topics and giving us adeqaute skill for next few smesters.
67	It developed analytical thinking and excel eased all our works. Excel helped a lot in building critical thinking.
68	Practicality
69	It was always running parallel to the studio, and we were able to relate its importance to the methodology.
70	Teaching techniques
71	Application and understanding the subject by using it in other studio(UTC)
72	the corse helped in making my understanding better about excel and better indsterstanding abt graphs and data
73	a better understanding of the introduction of the graphical representation and the data analysis which was explained properly and each term can be quantified.
74	All doubts were addressed simultaneously, and extensive efforts were invested in revisiting each topic multiple times until everyone comprehended it.
75	Overall perspective of analysis through excel has enhanced
76	Well structured.
77	The assignments/field visits/practical helped improve my understanding of the subject
78	Learning the importance of the subject and its practical use in the planning industry or any research we will do in future.
79	How useful excel can be. Various functions that can be performed on it.
80	Teaching method and improved Excel skill
81	The course helped me to understand the Analysis of various data which as a planner is collected by me . The analysis skills are strengthened at various levels and this shall help me for my future in the master???'s program . As a civil engineer the subject was relatable and helped me to strengthen my analysis skills .
82	The structure and applications
83	
84	The course was very much needed as this helped us in data cleaning, and identifying how to sort data and methods to find the relationship between those data
85	It covered the basics of all the subjects.
86	The best part was the numerous concepts that were incorporated and the clear linkage to use them practically
87	Very helpful in understanding complex data
88	The quizzes really helps to memorize about the previous class and further help us to engage in the next lecture.
89	it helped me to built my analytical skills and learnt the functions and formulas in excel which eased my work.
90	We'll aligned with other mandatory courses, hence the concepts can understood well
91	i like how to get easy tables
92	NA
93	
94	I like how quantitative analysis courses often focus on practical, real-world applications. The ability to use data and mathematical models to solve complex problems is a valuable skill.
95	The course is valuable for advancing analytical skills. The topics covered are instrumental in conducting comparative analyses, a crucial aspect of further studies.This course afforded me a practical opportunity to work with Excel and acquire techniques for conducting various tests
96	Learning lots more statistical data than I knew but time constraints rushed the overall process of understanding and leraning this
97	Punctuality
98	The course materials (e.g. text, lecture notes, readings, etc.) were helpful in learning and understanding the content taught
99	Structure is well Constructed.
100	Learned excel in detail
101	Applying the knowledge learned in this course to UTC analysis was a positive experience for me.
102	
103	Overall it was informative
104	Teaching methods
105	Input lectures
106	New methods being taught
107	The assignments really helped with understanding the subject
108	Well structured
109	The value it creates in our understanding of our precinct in terms of data
110	The learning of the subject and its practical use.
111	I appreciated the effort of the tutors in making us understand the concept of whatever analysis we were working on for our studio. The hands-on learning session greatly helped me in understanding the subject better.
112	That is how we can relate our findings and observations in terms of quantitative analysis.
113	it gave a different approach to look at the data and how to work with numbers
114	Analysis
115	a.
116	
117	excel
118	Learning excel clearly
119	It was interesting to analyse the captured data throughout the foundation into a systematic manner through graphs and charts in a very efficient way.
120	Working with our own data (HH Survey) made it easy to understand.
121	The comprehensive learning long with weekly input lecture on the usage of excel with respect to the concepts helped in the overall understanding of the course. The application of the concepts in the real life problems helped in the better understanding of the course.
122	Course structure and way of structuring assignments.
123	.

What would you like to change about the course?

Sr No.	Comments
1	If possible increase the number of hands on excel class
2	Nothing
3	Nothing particular
4	All good.
5	Three tutor lecture into a one tutor lecture
6	Nil
7	NA
8	-
9	the assignments were given
10	not have too many tests, better if could reduce the number of tests and just have 2 submission
11	Nothing as such.
12	The teaching approach could have been in a different way.
13	More assignments could have been given instead of weekly test as assignments helped in better understanding.
14	The structuring and guidance
15	mock assignments before final assignment
16	
17	more active teaching associates
18	no
19	a slower pace of teaching during tutorial
20	None
21	Nothing
22	Nothing
23	The course was well structured, more assignments would give us more clarity on the concepts.
24	The faculty
25	-
26	None.
27	Nothing comes to my mind. The course has been designed well by the tutors and the pace is adaptable as well. The topics are not only relevant to current trends and needs of the market but also have been delivered in a way that makes them easier to grasp.
28	no change
29	-
30	.
31	Nothing
32	NA, more hands on classes are appreciated rather than tutorials.
33	something that will keep everyone more active
34	The structure of the course as at some moment of time I felt it to be too fast but the faculties still made us cope with it. And use of tests more in terms of its application can be enhanced.
35	But time for some topic is less
36	Post lunch class should be changed.
37	The way of teaching
38	Going too fast, sometimes not able to grasp that much
39	More study materials that can relate with our future analysis.
40	more practical classes
41	Practice more
42	Nothing
43	Answer keys were not always provided for the class tests until asked. So learning where we made mistakes was difficult.
44	NA
45	nothing
46	Nothing
47	
48	.
49	Ok
50	nothing
51	No change
52	-
53	I think the course was overall very well structured so there's not really a thing that I would like to change. Maybe keeping the lectures on Monday was a bit hectic as for Monday multiple submissions are asked for.
54	exposure to more enhanced data analysis tools such as R, python, Power BI
55	the course should have had more practice exercises
56	The timings
57	the group of students addressed at once is too big. it would be better if the tutorials can be in smaller focussed groups so the practicals are understood better
58	Nothing
59	.
60	No change
61	its good
62	The pace of the course. It would have better if we could spend a little more time on each topic and thus also evaluate the practical applications of each process

63	
64	-
65	
66	Nothing. The structure of weekly exams and weekly classes works well.
67	Nothing.
68	Assignment are not structured well
69	The management of the course timeline can still be improved. Also, avoid integrating group assignments into the curriculum.
70	Tests
71	comprehensive study of subject
72	nothing
73	na
74	Little more lectures
75	Intensity of the subject. In few assignments our UTC submissions were compromised
76	
77	
78	Clarity in the topics. The subject is new to me and it wasn't easy to understand the application of each topic appropriately.
79	Nothing
80	Nothing
81	More exercises need to be conducted on regular intervals . More one on one corrective majors to be suggested .
82	NA
83	
84	More sessions should be added
85	The time given to actually understand the concept and to work upon it was not satisfactory. it was more of a time problem was hectic as the work was done for the sake of doing.
86	More in class tutorials can be incorporated
87	nothing
88	None.
89	it was overall good so i want nothing to be changed about the course.
90	Few classes to be more focused on understanding it's application in real time scenarios.
91	nothing
92	NA
93	
94	no
95	The tutorial was delivered at a fast pace, making it challenging to grasp the steps. Occasionally, calculations were left unfinished due to insufficient time for problem-solving. Written assignments prove to be a more effective assessment method compared to weekly tests. The course could focus more on practical exercises rather than relying heavily on written tests.
96	More small assignments in tutorials rather than quiz as there was no time to study for the quizzes
97	Need time to breathe
98	.
99	I don't feel to change anything is completely good.
100	nothing
101	Having smaller classes for more in-class practice would be great, rather than having one big class with 150 students.
102	
103	nothing
104	Better assignments
105	It CAN BE MORE WELL PLANNED, COMMUNICATION ISSUES
106	Best possible method
107	More assignments - less tests
108	Nothing to change
109	More time for each topic
110	Nothing
111	The tight schedule sometimes at times made it difficult to process the learning of the scheduled day.
112	More mock up tests and presentations
113	nothing
114	Nothing
115	a.
116	
117	n/a
118	The quiz coul be take with a little extra time and proper questions given prior for preparing
119	.
120	Could provide better notes (link to notes), the ppt provided don't give full information. And searching the web for information gets confusing sometimes.
121	If assignments were given instead to quizzes, that would have been more helpful in gaining a holistic understanding of the course as assignment allows us to dive deeper into the concept and helps in understanding the nuisances of the concept.
122	Nothing.
123	.
124	No Comments

Course Comments

Sr No.	Comments
1	-
2	NA

3	-
4	not great method.
5	good
6	Everything is good.
7	None
8	good
9	Nothing
10	Great course. Learnt a lot and also understand it's practical aspect.
11	Good explanation and great individual comment
12	Please also inculcate the practical programs instead of going theoretical to clear the concepts.
13	Course transition could be more clear
14	NA
15	It was helpful in understanding the studio
16	,
17	Ok
18	It was well structured and the study materials were very helpful.
19	Weekly quiz is a better idea than weekly assignments and that was implemented so it was more productive that way
20	-
21	Would have be nice if it would have been the first class of the day
22	none
23	None
24	TAs for the course could be more effective and helpful.
25	Nil
26	--
27	The course could've been managed in a better manner so that UTC would've not been hindered
28	The Excel tutorials were mainly oriented towards following the steps and not understanding the reasons behind doing it. However, the reason and application were explained upon asking. The clarity gained through assignments given.
29	This course in the masters of planning program , was the must required for analysis off data . without the skill off critical analysis it would have been difficult to synthesis and prepare strategies. This course has indeed value added in my skills . I hope this will help me for my future semesters as well .
30	It was well timed and assignments are insightful.
31	None.
32	.
33	-
34	..
35	This course really helped in the studio in the last exercises
36	NA
37	Mode of instruction
38	a
39	Overall the course was nice to learn
40	No Comments

What did you like best about this instructor's teaching method / approach?

Sr No.	Comments
1	Explained with good examples
2	Clearing doubts and achieving a clear understanding through various forms of communication.
3	Interactive sessions
4	Good teaching skills
5	.
6	Using excel to teach
7	Everything
8	-
9	Questions raised in session were effectively addressed
10	yes, helped in clearing the concepts
11	Giving clarity on the most basic and most complex issues with resolving and analysing data.
12	NA
13	The idea of having tutorials post lecture of a certain topic helped in understanding the application of the concept better.
14	Nothing
15	clear and concise explanations made complex topics easy to understand
16	
17	not great method.
18	good
19	cooperative
20	He did not hesitate to address comples topics when questions were raised
21	His way of explaining each concept in detail for the students to understand.
22	Teaching method is very good.
23	The tutor gave real time examples to help us learn the concepts more easily.
24	N/A
25	Explained the concepts in detailed way
26	Sir is an excellent tutor
27	Tushar sir's approach has been amazing. His approachable nature coupled with his calm demeanor has made it easier for students to approach him with absolutely any doubts.

28	good
29	-
30	.
31	Explanation
32	he was efficient in teaching , undrestood the concepts
33	the way he makes technical things simple
34	His coolness while teaching the course in new methods and him giving live examples as per his experience which opened a different aspect. He also pushed us ahead to explore the subject.
35	The structure is good
36	Like the way of taking classes and clarifying doubts.
37	The enthusiasm
38	Too logical, Pragmatic explanation
39	The way everything had detail concept methods.
40	explanatory approach
41	Example
42	Everything
43	The assignments were based on real life applications rather than just producing what was learnt. It helped us understand the concepts in the long run. The professors were very approachable and were ready to help with our doubts even fo the quantitative analysis related work in UTC. The excel tutorials were very clear and helpful.
44	NA
45	very patient step by step teaching method
46	Explained things using simple exercise
47	
48	.
49	Ok
50	the way he clears our doubts
51	Good teaching
52	Very patient and always available to clear our doubts.
53	He used to be very concise about the topic this way it was easier to understand it conceptually
54	-
55	his step by step explanation process
56	Their co ordination to convey a topic at its best
57	being understanding of the varying levels of understanding and accommodating them promptly. very enthusiastic about ensuringt that the students learn well and approachable at all times.
58	The patience with which the faculty taught us the basics.
59	.
60	Good
61	excel knowledge
62	His way of teaching.HE took efforts to understand where the student could have a problem trued putting himself in his shoes and answered likewise,which was helpful to a large extent.
63	
64	-
65	
66	Practical teaching methods with excel.
67	Sir taught each and every concept very well and patiently waited for us to do every step while practicing excel.
68	Straightforward explanation
69	Patience of Instructor
70	Teaching style
71	Simple explanations
72	liked how he gave examples and explained complex material in simple terms
73	how the instructors gave a better understanding about the course and how to relate the topic with our mandatory subject
74	he made sure every session was repeted till everyone understood it
75	Step wise explanation of Excel
76	Very Approachable Tutor
77	
78	The tutor was always well-prepared for the lecture. Encouraged us to think beyond the course and look into each topic critically.
79	---
80	I liked the way of he teach Excel
81	The teaching techniques were good . It helped me to understand the subject and fundamentals in the simpler terms.
82	Diagramatic presentation
83	
84	Sir was very enthusiastic about the subject and can be seen while he was delivering lecture, tutorial sessions were very insightful
85	he was interactive throughout the session and explained the topics multiple times if required.
86	Good pace and enough doubt solving time
87	explaing things in a very simple way
88	He provides different examples which makes it easy for us to understand.
89	sir was very good and cleared all our doubts and pateintly taught us excel.
90	Breaking bigger concepts slides into smaller and understandable topics.
91	good
92	NA
93	

94	approach
95	The explanations were thorough, and the tutors were accommodating during the session. Questions were addressed promptly and effectively.
96	Sir's patience to go back and revisit the slide if not understood
97	Knowledge
98	Overall the instructor did an excellent job in teaching this course
99	He repeats each and every single thing again and again.
100	Explanations
101	He is well-versed in the subject matter and provides in-depth knowledge about the concepts. he always helps with the basic doubt without judging the person.
102	
103	Way of teaching
104	Teaching methods
105	.
106	Practical approach, and knowledge for the subject
107	The doubts were always resolved
108	Good
109	The use of good examples
110	Taught by practical examples.
111	His patience in making us understand the concept and structure of the subject.
112	The way he tries to make sure each and every concept is getting cleared or not
113	the patience
114	Good
115	a,
116	
117	keen participation
118	He teaches us excel as if he was teaching for babies and I really enjoyed the way he taught
119	Enthusiasm towards teaching.
120	He made sure we were on the same page during practical lessons on excel. Which was very important for understanding.
121	The tutor was really invested in making sure that we learn the concepts of the course, all the questions were answered in the session.
122	Explained complex concepts with ease and provided real-life examples to easily correlate.
123	.
124	No Comments

What would be your suggestions to improve the instructor's teaching?

Sr No.	Comments
1	Go with a slow pace
2	Provide more examples, starting with simpler ones, before moving on to more complex questions.
3	Nothing particular
4	All good
5	.
6	Simpler examples to explain complicated concepts. Explain all concepts in English as not all of us know the language.
7	NA
8	-
9	The instructor was effective in communicating the concepts
10	to not stretch too much of the concept and to keep it concise
11	Nothing.
12	NA
13	The presentations shared as reference for study for exams could have been more descriptive.
14	Nothing
15	NA
16	
17	not great method.
18	no
19	none
20	None
21	Nothing.
22	Nothing
23	The tutor was good overall. To conduct more assignments which would give us hands on experimentation with quants and excel.
24	The teaching style
25	-
26	None
27	No suggestions. He is a tutor par-excellence!
28	no suggestions
29	-
30	.
31	Nothing
32	na
33	speak very fast. students need time to adapt first that what is going on.
34	I understand the course is lengthy as per the time period allotted and due to that some people aren't able to cope up a few times as the studio has to be speeden up.

35	But time for some topic is less
36	I am okay with the way of teaching
37	Nothing
38	Goes too fast sometimes, please be slow
39	Nothing
40	availability in doubt
41	Nothing
42	Nothing
43	It would have been helpful if the answers of the quiz was discussed for few minutes before the results were announced. Many a times, a lot of correct answers were marked wrong which led to a lot of confusion.
44	NA
45	nothing
46	Nothing
47	
48	.
49	Ok
50	nothing
51	No change
52	-

54	-
55	NA
56	Too fast maybe can reduce the pace of teaching
57	none
58	Nothing
59	.
60	No change
61	nothing.
62	The pace of the course became a little tough for us to delve into the depth of each chapters
63	
64	-
65	
66	Nothing. Good teaching methods and great knowledge in excel.
67	He was very good.
68	Slow speed
69	Can still simplify the methodology of teaching the concepts.
70	Nothing all is well
71	N/A
72	nothing
73	no
74	no
75	NA
76	
77	
78	The basic concepts behind each topic could be explained more simply. I found it difficult to grasp at once.
79	Nothing
80	Nothing
81	More simplified examples to be given and they should be related to the Urban planning domain . This will help relate the program effectively .
82	NA
83	
84	No suggestions
85	can explain in a bit more easy way.
86	--
87	nothing
88	None.
89	nothing
90	Solving questions in Excel along giving real time scenarios.
91	no
92	NA
93	
94	no, he is best on his work
95	Additional time should be allocated for instructing Excel procedures and executing calculations.
96	tutorials were starting to not be very effective by the end of the semester
97	More engagement
98	.
99	It's Great.
100	nothing
101	With due respect, he struggles to convey his knowledge in a straightforward manner, occasionally making it too complex for students like me who are new to the subject.
102	
103	-

104	Better explanation of tricky concepts needed- simplified
105	.

118	I am satisfied with the teachers teaching method
119	.
120	Could help if lectures were increased for better understanding of certain topics. Some complicated topics are difficult to grasp in one session.
121	The sessions could have been more engaging.
122	Nothing.
