Instructor Name: Errol D'souza

Sr No.	Comments
1	The tutor explained maximum examples in the limited time which was really grateful of him. This has definitely helped in upgrading our understanding about the topic which is very important part of this course and for our practical life.
2	Sir could easily elaborate on a particular topic giving simple examples which is easily understandable.
3	He is a very great lecturer.
4	Very informative and insightful lectures from sir
5	-

6	He explains every topic very clearly with good examples.
7	Having this lecture with Prof. Errol on campus would have been a great opportunity. Looking forward for more such opportunities in future. It was a pleasure to have him as a part of our course. Only thing I feel sad about is that we couldn't give him a small farewell on the last day of the course.
8	Best tutor

25	I thoroughly enjoyed his class. Great Experience leaning from him.
26	It was an honor studying under him. Please have more such sessions with professors like them.
27	It was a privilege and honor to listen to his classes
28	He is a very good professor and has concrete knowledge of the topics he teach. Moreover his way of explaining things with the help of examples make the topics more easy and interesting.
29	NA
30	He was very good and made his points very clear which helped in learning economics.
31	Excellent experience, Thank you sir
32	One of the best faculty with vast sphere of knowledge in the respective field I came across till now in the University. Would request the University to arrange seminars by Errol Sir in the near future if possible.
33	NA
34	Amazing Teacher, very knowledgable but at the same time very humble and great with sharing his knowledge
35	I really loved the way of his teaching. I think I am no one to evaluate his way of teaching. No wonder why he is considered one of the best professors in India.
36	Excellent communication of concepts.
37	He is brilliant
38	He was too good in giving examples that students could relate.
39	The most effective faculty we have had this semester.
40	The way he teaches is perfect.
41	The small portion from his large set of wisdom over years been a Director of IIM Ahmedabad has really added to my knowledge of Economics.
42	Maybe adding some assignments to apply these concepts might have helped grasp them better.
43	He is very calm and composed, and understands students perceptions, and the way he makes us understands through stories and examples, amazing, looking forward for more classes with him.
44	It was good experience learning from him. The way he used practical examples to make us understand the concept was excellent.

39	Maybe have extra time for discussions
40	lacks one to one interaction
41	Sometimes it was difficult to be as engaged in an online learning platform as one would be in offline. Getting disconnected for even a minute would result in breaking the link of learning and while learning in a huge batch it would not be practical for the tutor to repeat some concept every time someone got disconnected.

65	Interaction with other students was weak
66	lack of interaction with the faculty, would have been great to meet prof. Errol in person and have discussions with him
67	Difficult to monitor when multiple people start talking at once. Also not being able to see each other's faces reduces the richness of interaction and discussions.
68	No Disadvantage
69	-
70	Communication with faculty.
71	An important part of attending school or college is the peer to peer interactions and socialization. These face to face interactions on a regular basis are necessary for one to maintain a healthy social life. Unfortunately, online learning takes away this element. Also, electricity and wi-fi shutdown led to missing out lectures.
72	Lack of Interactive Environment.
73	Screen time
74	doubt solving becomes difficult
75	Limited Student interactions
76	Would have been really good to interact with Prof. Errol in person.
77	More interaction with the instructor/TA, Access to other offline reading material
78	discussions on online medium were sometimes cut shorted.

106	Would be great to learn from him in-person
107	Wanted to have face to face interaction Errol sir. So that was the biggest disadvantage of the online classes.
108	Peer to peer learning, less discussions
109	Lack of direct interaction with peers and teachers. Not able to use on campus facilities and infra
110	not interactive
111	Face to face interaction among teacher's and student.

127	The video was made accessible only before the exam.. It would have been better if it was for the entire semester so we could get back and get our doubt cleared anytime through the semester
128	More helpful if it is was in offline campus.
129	I wish we could have more round of TA sessions for this subject. We just had a class in a week that did not completely help during our exams.
130	nothing
131	one on one interaction and effective discussions.
132	extended screen time
133	Debating and interaction with tutors and peers were virtually not possible.

135	Classroom interaction, more interaction, discussion
136	Online mode makes it difficult to interact or listen to the instructor, sometimes because of low net connectivity and electricity out conditions between important discussions.
137	Peer to peer learning is difficult

Suggestions for improving the online studio learning experience

Sr No.	Comments
1	I think everyone is trying their best to improve and this is the first time are trying something new, so it is okay to have some flaws. But, we all have improved a lot in this online mode of learning.
2	The subject was easy to understand through online learning. The video recording helped more.
3	interactive sessions
4	-
5	There should be some script of recorded lectures so the we can read it and do assignments effectively. videos were taking much time before exams.
6	Overall a good experience. Looking forward to more such lectures with Errol Sir. His teaching style made it fun and successful.
7	Having smaller batches of students would be helpful in online learning and interaction.
8	Well structured, informative course, enjoyed learning
9	Nil
10	Nil.
11	The amount of screen time can be reduced, considering the cumulative effect on our mental and physical strain. Would be very helpful to have the weekends free for us to work by ourselves and with other peers as the current semester had tests and sessions on the weekends, which was a bit overwhelming and reduced the time it was required for us to work on the submissions.
12	personally felt zoned out sometimes. More assignments in this subject could have helped more.

13	None
14	The quality of teaching was very good and understandable.
15	less long classes
16	Need more example
17	Please add some assignments.
18	The theory lecture should be kept for a maximum of 1 hrs. 2 hrs of the continuous lecture is very difficult to grasp.
19	NA
20	Less screen time.
21	Nil
22	The online classes are sometime too monotonous and sitting in front of system for 3 hours straight become tiring.
23	More sessions with the tutors, if possible
24	NA
25	Nil
26	Na
27	The course was perfectly designed, so would change nothing.
28	We could have had more tests to check our knowledge continuously
29	Overall one of the best classes of the first semester. Everything was perfect for the class. I really don't have any such significant suggestions.
30	-
31	Less screen time
32	Bringing experienced people for teaching this subject since this is more related to the dynamics of real-world time.
33	give good knowledge
34	I really hope it's not going to be online. there's nothing much to do to improve.
