■ **Course Average(COR AVG):** This is the average of the total responses for this course. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Individual Average(IND AVG):** This is the average score of the total responses for this instructor. For example, for Studio IV, out of total 32 students 28 have responded, the Average represents the mean of all 28 responses.

■ **Faculty Average(FAC AVG):** This is the average of all responses for similar course type within the Faculty. For example, Faculty average of Studio IV offered by FA, represents the mean of all responses for Studio courses offered in FA during the given semester.

Scale: 1-3: Unsatisfactory, 4-6: Average, 7-8: Good, 9: Very Good, 10: Excellent

What did you like best about this course?

Sr No.	Comments
1	Everything
2	The classes were very interactive
3	Practical sessions and drone survey for basic understanding.
4	Handson exercises
5	well structured
6	best material for this subject
7	The applicability with current industry requirements
8	Properly designed
9	The structure of the courses
10	The course was well constructed
11	Information
12	The conceptual undersanding has given other aspects of remote sensing and many other applications.
13	Interesting course. Especially liked the part where we did hands on excercises like using the Stereoscope, the drone survey and then working on the drone datasets.
14	it contains all possible aspects of this topic and it was thoroughly explained.
15	very well articulated to understand the present domain knowledge about drones, photogrammetry and other aerial survey techniques
16	.
17	Course outline

What would you like to change about the course?

Sr No.	Comments
1	It's fine for now
2	No
3	nothing
4	nil
5	nothing.
6	nothing
7	Better lecture timing
8	More hands on Practical
9	Nothing
10	Timeline for the contents can be better
11	Mor practicals
12	Nothing
13	Nothing to change in the course. If only we could have a better lab.
14	just want management to arrange for the lab so that practicals can be done propoerly, faculty tried to explain everything with whatever resources she had. It was flaw on the management part that till the end they couldn't arrange for ERDAS Licences and hence our hands on was left.
15	little less of the past and more of the technology used today.

1	Teaching
2	Interactive learning and cleared all our doubts.
3	she taught well and condusted practical sessions for giving more knowledge about instruments and concepts of photogrametry.
4	Maam explained all our doubts and made sure we understood the concepts
5	Like how the topics are delivered which are well prepared.
6	approach was good
7	Approachable, easy to communicate with
8	Ma'am explained complex concepts in a simple manner
9	The patience in teaching and clearing each and evrry doubt
10	She is very responsive and takes our query very positively, I feel very comfortable in her classes.
11	Passion for teaching and subject and behaviour towards students

12	Approach of teaching is appreciated.
13	There was emphasis on practicals just as much as the theory.
14	she was always approachable and listen to what we ask, she come prepared to class with the content and look back on all the queries we have in class. Encourage us to ask questions and there's healthy learning environment in our class.
15	The efforts she puts in is immense and the dedication towards the students to convey the concepts is good too.
