2	The course could have been more practical and hands on, and less lecture based.
3	The course was well-structured and the contents taught were important to understand. While most of the lectures conveyed the topic they were addressing in a thoughtful manner, and were able to go deep into it regarding the information and nuances of the field, I feel the lectures conducted by Prof. Snehal Shah were not able to do so, and covered a surface level explanation of the topic.

20	-
21	-
22	It's a wonderful course for students who are about to graduate. It's eye opening in many ways.
23	.
24	-
25	.
26	Helped a lot in opening new perspective towards practise
27	.
28	Excellent
29	This course is an amazing way to open your eyes on what the world is beyond the walls of cept, and was very helpful in knowing what are the various ways in which this profession and things that go around all kind of professions are to be handeled
30	???
31	The course was really needed its just it was too hectic and bombardment of information
32	-

37	The course was definitely helpful. Good part was that it was conducted as a series of lectures and kept us Contemplate for atleast 3 days. Personally I enjoyed all the lectures and found value in it although a lot of it was something we have already known someway or the other but listening it like this helped. It was something may be much needed as for a person entering 10 th sem

39	..
40	Professional practice was a beneficial course that gave a decently holistic view of architectural practice and accompanying challenges. I would have preferred if the lessons and insights shared by the practising architectes were illustrated through projects or even a single project so we as students are constantly able to correlate the challenges with the project client contractor etc.
41	-
42	Most of it was very useful for practical professional situations.
43	.
44	The course was very informative about the realities of this field. All the lectures were very very helpful
45	Its a very well structured and well thought-out course.
46	.
47	-
48	The sessions were brillinatly organised, would have loved to have the pdfs shared with the students after the classes.
49	The course was very well curated, enjoyed the mix of lectures.

61	.
62	The course was wonderful and all the lectures were very interesting, the only feedback would be about the continuous duration of the different lectures. It was a little hard to keep up the focus at the end of the day so if the lectures were more spread out, it would definitely allow students to take more out of all the lectures. Thank you.
63	It was a much needed course to understand what goes on in architecture outside college.
64	The course should've been more distributed among more days so the information is easy to take in.
65	.
66	-
67	The course had a significant impact on our perspective of the profession It answered most of the doubts or queries that arise amongst the students before venturing into the actual practice It also included some unique topics which were very crucial to the theme of the course
68	.

39	The efforts put in place were really helpful it definitely helped me to clarity on thing which somewhere were always at back of my mind.
40	-
41	..
42	his valuable insights after each lesson are commendable as he can provide multiple viewpoints and opportunities without bias and have a pragmatic real-world approach to the topics discussed.
43	-
44	Well-curated set of lectures.
45	.
46	He has really helped us by taking this professional practice course, very grateful

62	.
63	-
64	Very professional
65	.
66	-
67	He has a great vision and therefore was mindful to bring in speakers from various disciplines hence giving a good exposure of all the aspects to consider in the real world The effort to get a speaker from a medical field was really helpful to self- retrospection, mentally and physically How to view the profession as a business to have an income flow was also well taught by all the speakers The lineup of lectures was also very well curated
68	.
