1. About the Course

1.1 *Invisible Cities* is a literary masterpiece by Italo Calvino that invites readers into creative exploration of imaginary cities and the complexities of human experience. This course aims to delve into Calvino's intricate narrative through a series of activities and modules combining literature, research, urban studies, creative thinking and visualization. This course explores the intersection of fiction and reality in cities by examining how the themes, symbols, motifs, and concepts found in the text can be applied to the understanding of real-world cities, in this case- Ahmedabad. The course will require students to explore the various vicinities of Ahmedabad and re-imagine them within Calvino's themes while engaging with different theories and mediums of representation. **For more information, please visit <https://sws.cept.ac.in>.**

2. About CEPT University

CEPT University focuses on understanding, designing, planning, constructing, and managing human habitats. Its teaching programs aim to build thoughtful professionals and its research programs deepen understanding of human settlements. CEPT University also undertakes advisory projects to further the goal of making habitats more liveable.
