5.1 Mention facilitating**Mention facilitating (favourable) factors pertaining to your Role**

1. Overall coordination at FT helps in completing tasks on time. The Dean is supportive and listens to suggestions and criticisms.

5.2 Mention Inhibiting**Mention inhibiting (unfavorable) factors pertaining to your role**

1. The Admin should be more proactive. 2. Usually my tasks as admission and UG coordinator depend on lot of admin support. Delays which are not communicated which delay tasks which I do not appreciate. Suggestions: 1. I would request a team budling exercise. Secondly, with admin staff at times it becomes difficult to handle things during critical times, they would not help each other without intervention. 2. To recruit teaching staff with a high level of urgency in Construction and Structures. We would ideally need to offer more studios in the Monsoon semester. If we recruit from Spring, we will have some opportunity to train them. 3. We should have a group for defining the process of research proposals. 4. Budget for international conferences.

6. Trainings**List any trainings required to update/enhance your knowledge/skill set**

1. Hydrological and Hydraulic Modelling with consultants in the field

I have always ensured the level of the studio or the problem statement is improved every year. For example in the Urban Water Systems studio, we procured we took two different site types. Flat terrains and highly undulating terrains. Four students were given small towns with flat terrains and five students were given wards of Junagarh with undulations. The rationale was to understand the design differences between the two. This was also commented upon and appreciated by BoR. 4. I have guided three students.
