7. SELF EVALUATION (from 1 to 5)

[1 - Completely Disagree | 2 - Partially Disagree | 3 - Neither Agree nor Disagree | 4 - Partially Agree | 5 - Completely Agree]

Question	Rating
A1) Teaching :	
1 . The teaching workload undertaken by me are as per the annual work plan	5
2 . The studios & courses taught by me are in my identified area of expertise.	4
3 . I have designed / implemented new studios / courses for offer. OR I regularly update my existing studios / courses to incorporate recent developments and new ideas in the discipline	5
4 . I undertake teaching / guiding adequate number of students for their thesis and DRP? (4 thesis / DRP students per year for full time faculty members, or proportionate)	5
5 . I mentor my students well. (based on student feedback comments)	5
Rationale based on evidence & qualitative comments :	
1. My teaching workloads are as per the annual work plan. However, they are heavy. I have taught eight courses, including summer and winter schools. These include one studio, two complete courses, three shared courses (half) and one summer and winter school, respectively, during the academic year 2022-23. The pieces of evidence are shown above. 2. The courses and studios taught by me, to some extent, fall in my identified areas of expertise. However, I undertake a few due to a lack of faculty members for the respective courses, such as a) Housing, People and Society etc. The students have also appreciated this course in the last couple of academic sessions. 3. I regularly update my course content and improve the teaching methods for easy learning. I support my lecture ppt by updating new literature and their findings to strengthen and update my arguments. 4. I have supervised two MUP DRPs and three BUD DRPs, besides guiding the PhD students' Research Papers (RPs) during this academic year. These numbers are more than adequate and help me improve my learning curves. 5. Students have always appreciated my mentorship. Student feedbacks for all my courses are above the faculty average. It is evident in section A3) Students Feedback.	
A2) Studios & Courses :	
6 . During the semester-end exhibition or the winter school exhibition, I have shown the Dean the studio work produced by all my students OR I have shown it at another time.	5
7 . If yes, the average quality of the studio work produced by my students in the studios is striving towards excellence.	4
8 . During the semester-end exhibition or the winter school exhibition, I have shown the Dean the work produced by all my students in courses / electives OR I have shown it at another time.	5
9 . If yes, the average quality of the work produced by my students in the courses is striving	.

towards excellence.	4
Rationale based on evidence & qualitative comments :	
The end-semester exhibition helps in putting extra effort into a better output. The Dean and other colleagues, including the visitors, have appreciated the students' work, including my students. The average quality of the student's work is usually excellent. However, there is always scope for outstanding work. BOR has been providing positive comments and appreciation for my student's work.	
A3) Student Feedback :	
10 . The average course feedback of courses taught by me is consistently higher than the Faculty average.	5
11 . The average instructor feedback of courses taught by me is consistently higher than the Faculty average.	5
Rationale based on evidence & qualitative comments :	
1. The average course feedback has been higher in all six courses that I taught except for one 2. The average instructor feedback has been excellent for all the courses (eight) that I taught during the academic years 2022-23 3. The verbatim comments of the students are very constructive and motivating. They have always encouraged me to improve my teaching methods and style for easier learning. 4. The feedback is provided below as the evidence Sl. No. Name of the Course Course Feedback Instructor's feedback 1 Foundation Studio (UTC) 8.5/8.1 8.6/8.2 2 Metropolitan Planning and Governance 8.2/8.0 8.4/8.4 3 Theory of Urbanisation and Cities 8.6/8.2 8.7/8.6 4 Public Health for WASH 9.0/8.2 9.1/8.6 5 Housing, People and Society 7.4/8.2 9.0/8.6 6 Sustainable Dev. Climate Change and Resilience 8.8/8.2 8.8/8.6 7 Understanding the world city - Kuala Lumpur NA NA 8 Creative Cultural Economy of Cities in Kerala NA NA	
B) Research :	
12 . The research / advisory work conducted by me is strengthening my area of expertise	5
13 . The significance and impact of the research published / disseminated by me is commensurate with the time spent on it (and its value)	4
14 . I have been recognized / awarded for my published / disseminated research / advisory	4
15 . I have published at least one paper in a nationally / internationally recognized peer reviewed journal (or equivalent)	5
Rationale based on evidence & qualitative comments :	
I have published three research papers in international journals (the list has been given above) and two conference proceedings of the World Disaster Management Congress held in New Delhi and published by Routledge Publications as chapters. This research work has provided a greater degree of strength to my areas of expertise and resulted in the visibility of my work to the global audience. They have also received my invitation to peer review the research papers for publication in their respective journals. One of the journals has extended an invitation to be the editor of a special issue on planning education. I will likely be part of the Journal- Environment and Urbanisation - Asia editorial board.	
C) Institutional Role (Faculty - needs to be graded separately) :	
16 . I have undertaken and successfully delivered significant Faculty-level institutional responsibility	5
17 . I have made an important contribution as part of my Faculty-level institutional responsibility	5
Rationale based on evidence & qualitative comments :	
All the institutional responsibilities have resulted in greater good for the faculty and the university. The FP placement has constantly been doing well, and this academic year FP placement has achieved more than 70 per cent overall result. The internship programme for first-year FP students is 100 per cent completed. The admission outreach programme for FP needs more institutional support and funds for outreach activities. I have successfully spearheaded the BUD DRPs process for this academic year. It was a learning experience for me as well.	
D) Institutional Role (University - needs to be graded separately) :	
18 . I have undertaken and successfully delivered significant University-level institutional responsibility	1
19 . I have made important contribution as part of my University-level institutional responsibility	

19 . I have made important contribution as a part of my University level institutional responsibility	1
Rationale based on evidence & qualitative comments :	
I have NOT been given any of the university-level institutional roles so far. I aspire to do so in the immediate future. My most preferred institutional roles would be any one of these: University Level Placement Coordination/Student Service Office/UG/PG Programme Coordinators, etc.	
E) Skills :	
20 . I continually demonstrate excellent communication skills in my interaction with peers, other staff members and students	5
21 . I regularly meet deadlines and demonstrates high level of time management skills	4
22 . I regularly demonstrate high level of team-work ability	5
23 . I regularly demonstrate strong analytical and decision-making skills	5
Rationale based on evidence & qualitative comments :	
1. I consistently demonstrate high collegiality with my peers and other university staff members. My interpersonal relationship with my peers and students is excellent. I sometimes go out of my way to help them with their academic and administrative needs. I have developed an amicable relationship with my peers, colleagues and students, which is good about this university. I always try to meet the deadline and have demonstrated time commitments. However, sometimes it gets delayed due to over-commitments. I believe in teamwork, which helps produce better professional work. I always take rational decisions for academic and institutional works based of the in-depth analytical and factual evidence. This is the skill that I developed over the time while teaching at the university.	
F) Personality :	
24 . I am always regular in my attendance and punctual in my time commitments	4
25 . I regularly demonstrate a high level of dependability in terms of the tasks assigned to me	5
26 . I routinely demonstrate a high level of proactiveness, enthusiasm and dynamism with respect to the tasks assigned to me	5
27 . I regularly demonstrate an open-mindedness and respect for diverse opinion of members within and outside of the Faculty	5
28 . I show my commitment to change for continuous quality & process improvement	5
Rationale based on evidence & qualitative comments :	
I try to demonstrate a high level of time commitment at the university. I have shown my time commitment to the assignment given to me. I am proactive in taking up the designed and or given task. My enthusiasm and dynamic nature have helped me to get adequate workloads and assignments from time to time. I have developed a mutual trust with all levels of academic leadership at the university. Hence, my academic and institutional workloads are more than adequate.
