The Threads of Innovation (TOI) (a collaborative project of four years between the Faculty of Architecture and Design, NTNU, Norway and the Faculty of Design, CEPT University, India.	Research	The Threads of Innovation (TOI) is a collaborative project of four years between the Faculty of Architecture and Design, NTNU, Norway and the Faculty of Design, CEPT University, India. TOI makes way for two kinds of alliances: cross-disciplinary, between design, architecture and crafts, and the other cross-cultural, between Norway and India. The students, faculty and experts will continuously engage with each other and enrich the bipolar cultural knowledge in crafts, design and architecture throughout the program through knowledge sessions, site explorations, common assignments and workshops in the hybrid academic model - online and physical. Exhibition - Maps in History: Urban Transformation of Ahmedabad	Undertaken	The exhibition showcases Ahmedabad's urban history over the last 150 years has been traced through a collection of key maps from various periods. The first city survey in 1881 marked the beginning of a long tradition of surveys and maps. The collection includes approximately 50 digitized maps, along with newspaper reports, gathered after extensive research in local government offices and archives.	completed	27-06-2024	27-06-2024	1
Exhibition - Pedagogy of Practice - an exhibition by Studio Archohm	Undertaken	The exhibition showcases the journey of archohm, a practice that evolved into a responsive stakeholder, initiating and realising large-scale projects. It highlights the balance between scale and scholarly inquiries and emphasises the importance of deep theoretical understandings and indigenous practices in architecture. The exhibition urges a pedagogical dialogue with the practice of architecture in an era where private practices must be thought leaders and public architecture must come of age in India.	completed	27-06-2024	27-06-2024	1
Exhibition - CEPT Excellence Award Exhibition	Undertaken	The academic exhibition for the Spring semester	completed	27-06-2024	27-06-2024	1
Exhibition - Drawing(s) from Raje: a patient search for Architecture	Undertaken	The exhibition showcases six projects from the vast collection of over sixty works by Anant Raje. These projects emphasise the development of connecting elements. The sketches and drawings are defined by the subject being studied and their relationship. Regarding architectural practice, it serves as a reminder that the design process results from the interaction between the mind and drawing rather than something that is only imagined and then put down on paper.	completed	27-06-2024	27-06-2024	1

5.1 Mention facilitating

Mention facilitating (favourable) factors pertaining to your Role
Various favourable factors contribute to my role as an academician, researcher and head of exhibitions. 1. The flexibility to evolve the design education pedagogy allowed me to create diverse, multidisciplinary design studios that revolve around my interests and expertise. 2. I can pursue educational research projects, enhancing the body of knowledge for teaching and developing engaging studio pedagogy. 3. Collaboration with curators and exhibition teams on academic and professional exhibitions enriched the learning experience. 4. Ability to develop exchange programs with other departments within CEPT and with other universities across India and the world.

5.2 Mention Inhibiting

Mention inhibiting (unfavorable) factors pertaining to your role
We require improved infrastructure to facilitate peaceful research and work. Meetings should have clear agendas and be more goal-oriented and specific. Additionally, there is a need for discussions on diverse design and academic issues to enhance our teaching pedagogy.

6. Trainings

List any trainings required to update/enhance your knowledge/skill set
The role of AI in design education, future knowledge-sharing methods in educational institutions, understanding research frameworks and systems within academic institutions, workshops related to mental health, and workshops to help understand youth and their current issues.

7. SELF EVALUATION (from 1 to 5)

[1 - Completely Disagree | 2 - Partially Disagree | 3 - Neither Agree nor Disagree | 4 - Partially Agree | 5 - Completely Agree]

Question	Rating
A1) Teaching :	
29 . The teaching workload undertaken by me are as per the annual work plan	5
30 . The studios & courses taught by me are in my identified area of expertise.	5
31 . I have designed / implemented new studios / courses for offer. OR I regularly update my existing studios / courses to incorporate recent developments and new ideas in the discipline	5
32 . I undertake teaching / guiding adequate number of students for their thesis and DRP? (4 thesis / DRP students per year for full time faculty members, or proportionate)	5
33 . I mentor my students well. (based on student feedback comments)	5
Rationale based on evidence & qualitative comments :	
As per my discussion with the dean, I planned to take a course last year while simultaneously working with the studio. However, due to the heavy workload (including an additional SWS) and other responsibilities, I decided to defer it to the upcoming academic year. My broad experience in various fields such as craft, design, exhibition, heritage, and culture informs my teaching style and enables me to integrate diverse disciplines. Both my teaching approach and studio work reflect this extensive knowledge base. Specifically, I have designed three studios - Celebrating Crafts, Reimagining the Vernacular, and Fictional Spaces - that draw upon this diverse knowledge. During this semester, I supervised the DRPs related to fictional spaces in my studio, where students researched production design and its influence on interior spaces based on character impact. As stated in the last performance review, facilitating 4 DRPs is not feasible. The DRPs are only available in the spring semester, and the current batches need to be bigger to accommodate multiple DRPs that cater to all faculty members and their respective subjects.	
A2) Studios & Courses :	
34 . During the semester-end exhibition or the winter school exhibition, I have shown the Dean the studio work produced by all my students OR I have shown it at another time.	5
35 . If yes, the average quality of the studio work produced by my students in the studios is striving towards excellence.	5
36 . During the semester-end exhibition or the winter school exhibition, I have shown the Dean the work produced by all my students in courses / electives OR I have shown it at another time.	5
37 . If yes, the average quality of the work produced by my students in the courses is striving towards excellence.	5
Rationale based on evidence & qualitative comments :	
The work of our students has been shown to the dean and program chair during the exhibitions. My studios have always excelled in terms of exhibitions and innovative presentations each semester. Also, both my studios, Reimagining The Vernacular and Celebrating Crafts, have been nominated for the Excellence Awards.	
A3) Student Feedback :	
38 . The average course feedback of courses taught by me is consistently higher than the Faculty average.	5
39 . The average instructor feedback of courses taught by me is consistently higher than the Faculty average.	5
Rationale based on evidence & qualitative comments :	
There have always been variations in terms of studios, depending on the semester and the studio offered. But overall, the rating has been good. The Ratings are given below (for the last cycle): Reimagining the vernacular Overall Rating of the course - (9.3) (Fac Avg - 7.9) Overall Rating of the instructor - (9.2) (Fac Avg - 8.0) Celebrating Crafts Overall Rating of the course - (7.8) (Fac Avg - 7.3) Overall Rating of the instructor - (7.8) (Fac Avg - 7.3) Fictional Space Overall Rating of the course - (7.7) (Fac Avg - 7.4) Overall Rating of the instructor - (7.1) (Fac Avg - 7.5)	
B) Research :	

40 . The research / advisory work conducted by me is strengthening my area of expertise	5
41 . The significance and impact of the research published / disseminated by me is commensurate with the time spent on it (and its value)	5
42 . I have been recognized / awarded for my published / disseminated research / advisory	5
43 . I have published at least one paper in a nationally / internationally recognized peer reviewed journal (or equivalent)	5
Rationale based on evidence & qualitative comments :	
I have been working on research related to multiple domain areas. Traditional Crafts of India, Craft-Design Collaborative Pedagogy, Vernacular Architecture and its Building Crafts and Vernacular Furniture. As stated above, I have written two book chapters - Crafts in India: Representations and Reflexivity through the Lens of applied research (for Routledge) and Kath-khuni Architecture of Himachal Pradesh: Decline, Continuity and Change (for AOW, Austria), which aligns with my research domain. Further, we will publish the book Smarya: Vernacular Furniture of Punjab and Haryana and Craft Experiential Tourism Toolkit this year. We have initiated the work on the monograph - Craft-Design Collaborative Pedagogy, which will be published next year. Further, I have received two research grants. 1. WWDF Research Grant for our research project -- Relevance and Continuity of Wood in the Kath Khuni Architecture in the Mountainous Region of Himachal Pradesh, India -- for the theme - Wood and Culture, from World Wood Day Foundation (WWDF) and International Wood Culture Society. 2024-2025 2. Endangered Material Knowledge Programme Research Grant for the research project - Documentation of building crafts in kath-khuni temple architecture of Western Himalayas, - from the Arcadia Foundation through the British Museum, UK. 2024-2026	
C) Institutional Role (Faculty - needs to be graded separately) :	
44 . I have undertaken and successfully delivered significant Faculty-level institutional responsibility	5
45 . I have made an important contribution as part of my Faculty-level institutional responsibility	5
Rationale based on evidence & qualitative comments :	
All the roles and responsibilities related to the faculty, such as internal juries, DRP review, portfolio review, convergence, Foundation Day logistics, faculty meetings, admissions (portfolio checking), and curriculum discussions, have been successfully delivered. Regarding contribution, the -Threads of Innovation- project at FD facilitates collaborative learning between craft and design through various workshops, lectures and field visits. Students are offered scholarships to visit Europe and gain exposure to the broader scope of craft-design collaboration.	
D) Institutional Role (University - needs to be graded separately) :	
46 . I have undertaken and successfully delivered significant University-level institutional responsibility	5
47 . I have made important contribution as a part of my University level institutional responsibility	5
Rationale based on evidence & qualitative comments :	
As the head of the exhibition at CEPT University, I have successfully curated/organised the following exhibitions (academic and practice-based); further, this year's exhibitions are also planned and are under the pipeline. Under Pressure Excellence Award Exhibition Winter Exhibition Drawing(s) from Raje: a patient search for architecture Excellence Award Exhibition Pedagogy of Practice - an exhibition by Studio Archohm Summer Exhibition MAPS IN HISTORY: Urban Transformation of Ahmedabad	
E) Skills :	
48 . I continually demonstrate excellent communication skills in my interaction with peers, other staff members and students	5
49 . I regularly meet deadlines and demonstrates high level of time management skills	5
50 . I regularly demonstrate high level of team-work ability	5
51 . I regularly demonstrate strong analytical and decision-making skills	5
Rationale based on evidence & qualitative comments :	
As a faculty member, exhibition head, principal investigator, fund recipient, and committee member, I use diverse communication methods such as personal calls, emails, and social media. I have interacted with various stakeholders on national and	

methods such as personal calls, emails, and social media. I have interacted with various stakeholders on national and international platforms, demonstrating strong communication, time management, and teamwork skills. My decision-making, analytical thinking, and logical reasoning abilities have been crucial at the institutional level, and I have excelled in collaborating with teams on exhibitions, research projects, and faculty coordination.

F) Personality :

52 . I am always regular in my attendance and punctual in my time commitments	5
53 . I regularly demonstrate a high level of dependability in terms of the tasks assigned to me	5
54 . I routinely demonstrate a high level of proactiveness, enthusiasm and dynamism with respect to the tasks assigned to me	5
55 . I regularly demonstrate an open-mindedness and respect for diverse opinion of members within and outside of the Faculty	5
56 . I show my commitment to change for continuous quality & process improvement	5

Rationale based on evidence & qualitative comments :

I have a strong track record of completing academic duties, institutional responsibilities, and research projects on time. I have held various positions such as executive director, program chair, exchange coordinator, alumni coordinator, and head of exhibitions. I have also been instrumental in establishing systems for exhibitions, programs, research, and projects, and I have served as a member of professional bodies, boards of studies, as well as a panelist and advisor for many organizations and institutions. I prioritize collaboration and diversity of knowledge and have adapted my work to meet the changing needs of society and institutions.
