Student:

Sr.No	Student Code	Student Name	Status
1	PAD20095	DEEPAK KHANDELWAL	CEPT Student
2	PBP21009	ADARSH ROODKEE	CEPT Student
3	PCM21387	VANKADARU ARAVIND	CEPT Student
4	PCR21331	SHIVANI SINGH	CEPT Student
5	PCR21397	PUROHIT VIDISHA HEMENDRABHAI	CEPT Student
6	PHR21040	ANJALI SREEKUMAR	CEPT Student
7	PLA21016	AFRAH JAHAN	CEPT Student
8	PLA21246	PARVATHY MURUKESAN	CEPT Student
9	PLA21340	SHRUTHI D MOHAN	CEPT Student
10	PUD20294	NIVATE RUTUJA PRAKASH SNEHA	CEPT Student
11	PUI20213	JAIN MOKSH KAMAL	CEPT Student
12	UC2417	Khyati R Chandpa	CEPT Student
13	UD4217	Abhishek Mummithi	CEPT Student
14	UG180022	Aatrey Sandeep Patel	CEPT Student
15	UG180049	Ahan Pujari	CEPT Student
16	UG180142	DEVANSHI HIREN ENGINEER	CEPT Student
17	UG180166	Dhruval Rajendrakumar Gadhvi	CEPT Student
18	UG180527	Patel Rushikumar Bhavanikumar	CEPT Student
19	UG180613	TAMANNA TOFIK VAKIL	CEPT Student
20	UG180622	Raval Tavishi Sumit	CEPT Student

1. About Course

1.1 This course is developed with the help of the Kerala Institute of Local Administration (KILA). KILA is the collaborating partner institute for this course. This study will assess the urban vulnerability and the various initiatives of climate resilience adopted by the various urban actors and stakeholders in Kerala. According to one estimate, the level of urbanization in the state is expected to reach 92 per cent by the year 2030. It is at present 48 per cent, much higher than the national average. Kerala is primarily a coastal region with a higher population density, the large urban agglomerations such as Kochi, Trivandrum, Thrissur, Kollam etc. are more at risk of coastal hazards related to climate change. Due to the rapid urban expansions of built-up areas, land surface temperature has been increasing and the evidence shows over-exploited groundwater conditions. The recent floods of 2018 devastated major urban centres in the state leaving urban planning at the crossroads for both the policymakers and urban planners. There is an urgent need to innovate planning interventions and make the urban community resilient to these environmental and climate change-related risks.

2. About CEPT University

KASTURBHAI LALBHAI
CAMPUS, UNIVERSITY RD
NAVRANGPURA

T: +917926302470 AHMEDABAD 380009

Established in 1962, CEPT University, Ahmedabad is a 60 - years old institution in India that focuses on understanding, designing, planning, constructing and managing human habitats. Its teaching programs aim to build thoughtful professionals and its research programs attempt to deepen understanding of human settlements. CEPT University also undertakes advisory projects to further the goal of making habitats more livable. Since the very beginning, the University has functioned as a collaborative between academics and professionals, with support from philanthropic civic leaders and the government.

3. About SWS

*It is an innovative platform offering diverse learning opportunities to students across the world. It provides valuable learning experience through exposure to different places and interaction with a variety of students, practitioners and academicians. Students are invited from all over the world to participate in the courses offered, after successful completion of which they are awarded the certificates mentioning the credits they have earned. **For more information please visit our website www.sws.cept.ac.in***

We request you to render them all possible help so that they can finish their work in limited time available at their disposal. Kindly note, that the University will not be responsible for any liabilities including financial.

Regards,

Mona Iyer, PhD

Dean

Faculty of Planning
