Therefore, we would request you to kindly share this information about the course with all your consulates and VFS Centers, together with the list of students and faculty who will be submitting their application for visas for the purpose of this study trip to **London**.

1. About Course

The public spaces and infrastructure plays vital role in city's wellbeing. London streets occupies majority of public spaces. The city has discouraged use of cars by various policy measures. As a result more people centric spaces are developed. The available right of way also uses the carry the utilities. There is constant challenge to keep the utilities maintainable and still judiciously using the public spaces. The city of London on one side has modern high-rise and buildings and on the other side traditional buildings are preserved. The challenges are in maintaining a balance between old and new and providing infrastructure to support sustainable growth. The summer school is aimed at exploring public spaces and infrastructure, innovation therein and understanding its impact. London has been implementing projects that are at par with the global practices are or exceeding it. The course will explore some of these. There will be involvement of expert Mr. Nimitt Karia, Visiting Faculty CEPT University for part of the field visits. *For more information, please visit <https://sws.cept.ac.in>*

2. About CEPT University

CEPT University focuses on understanding, designing, planning, constructing, and managing human habitats. Its teaching programs aim to build thoughtful professionals and its research programs deepen understanding of human settlements.
